Rethinking Social Movements Jeff Goodwin, James M. Jasper, 2003-10-07 This landmark volume brings together some of the titans of social movement theory in a grand reassessment of its status For some time the field has been divided between a dominant structural approach and a cultural or constructivist tradition The gaps and misunderstandings between the two sides as well as the efforts to bridge them closely parallel those in the discipline of sociology at large This book aims to further the dialogue between these two distinct approaches to social movements and to show the broader implications for sociology as a whole as it struggles with issues including culture emotion and agency

varied understanding of how social movements arise and persist but also engender unanswered questions pointing to new theoretical strands and fields of research The Future of Social Movement Research asks How are the dynamics of contention shaped by globalization By societies that are becoming increasingly more individualized and diverse By the spread of new communication technologies such as social media cell phones and the Internet Why do some movements survive while others dissipate Do local and global networks differ in nature The authors essays explore such questions with reference to changes in three domains of contention the demand of protest changes in grievances and identities the supply of protest changes in organizations and networks and how these changes affect the dynamics of mobilization In doing so they theorize and make empirically insightful how globalization individualization and virtualization create new grievances new venues for action new action forms and new structures of contention The resulting work brought together through engaging discussions and debates between the contributors is interdisciplinary and unusually broad in scope constituting the most comprehensive overview of the dynamics of social movements available today Contributors Marije Boekkooi VU U Amsterdam Pang Ching Bobby Chen U of California Merced Donatella della Porta European U Institute Mario Diani U of Trento Italy Jan Willem Duyvendak U of Amsterdam Myra Marx Ferree U of Wisconsin Madison Beth Garrity Gardner Ashley Gromis Swen Hutter U of Munich Ruud Koopmans WZB Berlin Hanspeter Kriesi U of Zurich Nonna Mayer National Centre for European Studies Doug McAdam Stanford U John D McCarthy Pennsylvania State U Debra Minkoff Barnard College Columbia U Alice Motes Pamela E Oliver U of Wisconsin Madison Francesca Polletta U of California Irvine Jacomijn Prins VU U Amsterdam Patrick Rafail Tulane U Christopher Rootes U of Kent Canterbury Dieter Rucht Free U of Berlin David A Snow U of California Irvine Sarah A Soule Stanford U Suzanne Staggenborg U of Pittsburgh Sidney Tarrow Cornell U Verta Taylor U of California Santa Barbara Marjoka van Doorn Martijn van Zomeren U of Groningen Stefaan Walgrave U of Antwerp Saskia Welschen

Johnston,2013-11-05 A full length analysis of social movements from a cultural perspective This work considers the different approaches to culture how movements are affected by their cultural environment and internal cultures within the movements themselves *Making Sense of Social Movements* Nick Crossley,2002-01-16 effectively demonstrates the enduring importance of classical social movement theory and provides a cutting edge critical review of recent theoretical developments This is one of the most important general theoretical texts on social movements for some years Paul Bagguley University of Leeds Why and how do social movements emerge In which ways are social movements analysed Can our understanding be enhanced by new perspectives Making Sense of Social Movements offers a clear and comprehensive overview of the key sociological approaches to the study of social movements The author argues that each of these approaches makes an important contribution to our understanding of social movements but that none is adequate on its own In response he argues for a new approach which draws together key insights within the solid foundations of Pierre Bourdieu's social theory of practice This new approach transcends the barriers which still often divide European and North American perspectives of social movements and also those which divide recent approaches from the older collective behaviour approach The result is a theoretical framework which is uniquely equipped for the demands of modern social movement analysis The clear and concise style of the text as well as its neat summaries of key concepts and approaches will make this book invaluable for undergraduate courses It will also be an essential reference for researchers **How Social Movements**

Social Movement Dynamics Federico M. Rossi,Marisa von Bülow,2016-03-03 This book presents an overview of new approaches to the study of social movements emerging out of Latin America based on original and innovative analyses of the recent changes in collective action across the region Over the past decade new repertoires of contention have emerged in parallel to changes in the configuration of actors in previously established patterns of relationship between social movements

and political institutions and in the shapes of collaborative networks both domestic and transnational The authors analyze a broad set of countries and social movements while focusing on three key theoretical debates the interactions between routine and contentious politics the relationship between protest and context and the organizational configurations of social movements The research agenda put forward by this book is neither defined nor restricted by geographical boundaries even though the chapters are based on field research undertaken in Latin America In doing so this volume contributes to a still underdeveloped dialogue in theory building in social movement studies among scholars from the South and from the North as well as among scholars specialized in different regions
