What Is College For The Public Purpose Of Higher Education:

What Is College For? The Public Purpose of Higher Education Ellen Condliffe Lagemann, Harry Lewis, 2015-04-17
At a time when higher education attendance has never felt more mandatory for career success and economic growth the distinguished contributors to this provocative collection ask readers to consider the civic mission of higher education as equally vital to the nations well being Should higher education serve a greater public interest In what ways should colleges and universities be asked to participate in public controversies What should we expect institutions of higher education to contribute to the development of honesty and ethical judgment in the civic sphere What should colleges do to foster greater intellectual curiosity and aesthetic appreciation in their students and communities and why is this important for all Americans **The Yale Law Journal** ,1914 **Laws of the State of Illinois Enacted by the ... General Assembly at the Extra Session ...** Illinois,1972 **The Annual Meeting - Association of Urban Universities** Association of Urban Universities,1927 **Resources in Education** ,1999 *Proceedings of the National Association of State Universities and Land-Grant Colleges* Association of State Universities and Land-Grant Colleges. Convention,American Association of Land-Grant Colleges and State Universities. Convention,Association of American Agricultural Colleges and Experiment Stations. Convention,National Association of State Universities and Land-Grant Colleges. Convention,1920 **Annual Report of the Attorney General to the Governor of the State of Ohio** Ohio. Attorney General's Office,1912

Remaking the American University Robert Zemsky, Gregory R Wegner, William F. Massy, 2005-07-11 At one time universities educated new generations and were a source of social change Today colleges and universities are less places of public purpose than agencies of personal advantage Remaking the American University provides a penetrating analysis of the ways market forces have shaped and distorted the behaviors purposes and ultimately the missions of universities and colleges over the past half century The authors describe how a competitive preoccupation with rankings and markets published by the media spawned an admissions arms race that drains institutional resources and energies Equally revealing are the depictions of the ways faculty distance themselves from their universities with the resulting increase in the number of administrators which contributes substantially to institutional costs Other chapters focus on the impact of intercollegiate athletics on educational mission even among selective institutions on the unforeseen result of higher education s outsourcing a substantial share of the scholarly publication function to for profit interests and on the potentially dire consequences of today s zealous investments in e learning A central question extends through this series of explorations Can universities and colleges today still choose to be places of public purpose In the answers they provide both sobering and enlightening the authors underscore a consistent and powerful lesson academic institutions cannot ignore the workings of the markets The challenge ahead is to learn how to better use those markets to achieve public purposes Engaging Higher Education Marshall Welch, 2023-07-03 Co published with For directors of campus centers that have received the Carnegie Classification

for Community Engagement this book offers research and models to further advance their work For directors starting out or preparing for application for the Carnegie Classification it provides guidance on setting up and structuring centers as well as practical insights into the process of application and the criteria they will need to meet Building on the findings of the research undertaken by the author and John Saltmarsh on the infrastructure of campus centers for engagement that have received the Carnegie Classification for Community this book responds to the expressed needs of the participating center directors for models and practices they could share and use with faculty and mid level and upper level administrators to more fully embed engagement into institutional culture and practice This book is organized around the purpose the why platforms the how and programs the what that drive and frame community engagement in higher education offering practitioners valuable information on trends of current practice based on Carnegie Classification criteria It will also serve the needs of graduate students aspiring to become the future professoriate as engaged scholars or considering preparation for new administrative positions being created at centers
