The Pursuit of Human Well-Being Richard J. Estes, M. Joseph Sirgy, 2017-01-09 This handbook informs the reader about how much progress we the human race have made in enhancing the quality of life on this planet Many skeptics focus on how the quality of life has deteriorated over the course of human history particularly given World War II and its aftermath This handbook provides a positive perspective on the history of well being Quality of life as

documented by scientists worldwide has significantly improved Nevertheless one sees more improvements in well being in some regions of the world than in others Why This handbook documents the progress of well being in the various world regions as well as the differences in those regions The broad questions that the handbook addresses include What does well being mean How do different philosophical and religious traditions interpret the concept of well being within their own context Has well being remained the same over different historical epochs and for different regions and subregions of the world In which areas of human development have we been most successful in advancing individual and collective well being In which sectors has the attainment of well being proven most difficult How does well being differ within and between different populations groups that for a variety of socially created reasons have been the most disadvantaged e g children the aged women the poor racial ethnic and sexual minorities

Border Cities and Territorial Development Eduardo Medeiros, 2021-11-21 This monograph analyses the role of border cities in promoting territorial development processes in border regions across the world It not only embraces the scientific fields of regional and urban studies but also addresses territorial urban local regional development and planning theories as well as the effects of development policies applied to border regions in both Europe and North America In essence the book offers a full toolkit of border regions territorial development knowledge and in particular advances a range of policy development proposals It provides a comprehensive introduction to contemporary thinking about how border cities can play a decisive role in boosting territorial development processes in border regions The book is divided into three parts Part I presents a theoretical framework on the role of border cities in promoting territorial development and planning in border regions Part II debates current mainstream policies focusing on supporting border regions and specifically border cities in the EU the UK and North America Finally Part III presents a wealth of updated knowledge based on the analysis of several concrete case studies border cities from both Europe north south east and west and North America Canada the United States and Mexico The chapters are written by some of the most renowned authors on the subject including scholars from several European and North American countries as well as the secretary generals of three European border regions associations AEBR MOT and CESCO The book will thoroughly prepare students and provide knowledge to academics and policymakers in the fields of urban and regional planning and development studies human geography economic development EU policies border regions and policy impacts

Alternative Tourism in Turkey Istvan Egresi, 2016-12-08 This book takes inventory of and evaluates the available resources for the development of alternative tourism in Turkey It examines the role of alternative tourism in future tourism development plans and proposes public policies necessary to assure sustainability Although tourism started later in Turkey than in the Western Mediterranean countries it has grown very rapidly during the last three decades and today the country ranks among the top ten countries in the world in terms of both arrivals and receipts However most of the tourism development has been in the mass tourism sector or the so called sun sea sand tourism While crucial for the economic

development of Turkey mass tourism in the absence of proper planning has happened in a haphazard manner leading to numerous environmental and socio cultural problems This book argues that in order to mitigate these problems Turkey should encourage the development of alternative forms of tourism

Global Shift Peter Dicken, 2014-12-17 *Global Shift* is quite simply the definitive work on economic globalization The extensive use of graphics lack of jargon and clear definition of terms has made it the standard work for the social sciences The Seventh Edition has been completely updated using the latest available sources It maps the changing centres of gravity of the global economy and explains the global financial crisis Each chapter has been extensively rewritten and new material introduced to explain the most recent empirical developments ideas on production distribution consumption and corporate governance *Global Shift* provides The most comprehensive and up to date explanation of economic globalization available examining the role of transnational corporations states labour consumers organizations in civil society and the power relations between them A clear guide to how the global economy is being transformed through the operation of global production networks involving transnational corporations states interest groups and technology Extended discussion of problems and institutions of global governance in the context of the global economic crisis and of the role of corporate social responsibility A suite of extensive online ancillaries for both students and lecturers including author videos case studies lecture notes and free access to specially selected journal articles related to each chapter There is only one definitive guide to economic globalization for the social sciences and that s Peter Dicken s *Global Shift*

Understanding Innovation in Emerging Economic Spaces Grzegorz Micek, 2016-03-09 A small number of countries regions cities and localities are powerful gatekeepers and generate the bulk of creative and innovative ideas while the majority is largely excluded This book looks at neglected but emerging innovation centres analysed from various spatial and organizational perspectives ranging from entire countries and regions to individual firms and small neighbourhoods Bringing together leading scholars from various disciplines it examines a variety of economic sectors including biotechnology agrotourism and the food retail industry The authors employ various often contradictory concepts ranging from local buzz and the global pipeline through an analysis of collective learning processes to geographical embeddedness using both qualitative and quantitative approaches The purpose of the book is twofold investigating changes occurring in the regions and cities under transformation and attempting to find common and unique mechanisms behind these changes Consequently the authors shed light on the scale and scope of the innovativeness of selected economic and social processes

Applied Spatial Modelling and Planning John R. Lombard, Eliahu Stern, Graham Clarke, 2016-10-04 This book highlights the extraordinary range of areas to which geographical analysis and spatial modelling can bring lessons

and insights It shows how these techniques have been used to address real world issues that are of concern to international organisations public agencies and businesses as illustrated by actual funded projects that geographers have developed collaboratively with end users Applied Spatial Modelling and Planning shows how much geographical research is policy relevant to a wide variety of agencies through the use of GIS and spatial modelling in applied geography The book s chapters contain a cross section of innovative applications and approaches to problem solving within five major domains of the dynamics of economic space housing and settlements population movements and population ageing health care and the environment Using a number of case studies on the use of GIS and spatial modelling this book demonstrates the fact that much of what is done by quantitative geographers is not only relevant within academia but also has use in policy work This book will appeal to an international audience interested in cutting edge spatial modelling to better understand the processes involved in solving real problems
