The World They Made Together Black And White Values In Eighteenth Century Virginia

Dorothy C. Bass, Craig Dykstra

The World They Made Together Black And White Values In Eighteenth Century Virginia:

The World They Made Together Mechal Sobel,1987 The Southern Awakenings were a climax to a long period of intensive racial interaction and as a result the culture of Americans blacks and whites was deeply affected by African values and perceptions The interpenetration of Western and African values took place very early beginning with the large scale importation of Africans into the South in the last decades of the seventeenth century In spite of a significant interpenetration of values between the two races the whites were usually unaware of their own change in this process Nevertheless in perceptions of time in esthetics in approaches to ecstatic religious experience and to understanding the Holy Spirit in ideas of the afterworld and of the proper ways to honor the spirits of the dead African influence was deep and far reaching

World They Made Together Mechal Sobel,2003 *The American Farmer in the Eighteenth Century* Richard L. Bushman,2018-01-01 An illuminating study of America s agricultural society during the Colonial Revolutionary and Founding eras In the eighteenth century three quarters of Americans made their living from farms This authoritative history explores the lives cultures and societies of America s farmers from colonial times through the founding of the nation Noted historian Richard Bushman explains how all farmers sought to provision themselves while still actively engaged in trade making both subsistence and commerce vital to farm economies of all sizes The book describes the tragic effects on the native population of farmers efforts to provide farms for their children and examines how climate created the divide between the free North and the slave South Bushman also traces midcentury rural violence back to the century s population explosion An engaging work of historical scholarship the book draws on a wealth of diaries letters and other writings including the farm papers of Thomas Jefferson and George Washington to open a window on the men women and children who worked the land in early America

The Oxford Handbook of the American Revolution Edward G. Gray,Jane Kamensky,2015 The Oxford Handbook of the American Revolution introduces scholars students and generally interested readers to the formative event in American history In thirty three individual essays the Handbook provides readers with in depth analysis of the Revolution s many sides

The Devil's Lane Catherine Clinton,Michele Gillespie,1997-06-26 When Europeans settled in the early South they quarreled over many things but few imbroglios were so fierce as battles over land Landowners wrangled bitterly over boundaries with neighbors and contested areas became known as the devil s lane Violence and bloodshed were but some of the consequences to befall those who ventured into these disputed territories The Devil s Lane highlights important new work on sexuality race and gender in the South from the seventeenth to the nineteenth centuries Contributors explore legal history by examining race crime and punishment sex across the color line and slander Emerging stars and established scholars such as Peter Wood and Carol Berkin weave together the fascinating story of competing agendas and clashing cultures on the southern frontier One chapter focuses on a community s resistance to a hermaphrodite where the town court conducted a series of examinations to determine the individual s gender Other pieces address topics ranging from resistance

to sexual exploitation on the part of slave women to spousal murders from interpreting women's expressions of religious ecstasy to a pastor's sermons about depraved sinners and graphic depictions of carnage all in the name of exposing evil and from a case of infanticide to the practice of state mandated castration. Several of the authors pay close attention to the social and personal dynamics of interracial women's networks and relationships across place and time. *The Devil's Lane* illuminates early forms of sexual oppression inviting comparative questions about authority and violence, social attitudes and sexual tensions, the impact of slavery as well as the twisted course of race relations among blacks, whites, and Indians. Several scholars look particularly at the Gulf South, myopically neglected in traditional literature, and an outstanding feature of this collection. These eighteen original essays reveal why the intersection of sex and race marks an essential point of departure for understanding southern social relations and a turning point for the field of colonial history. The rich, varied, and distinctive experiences showcased in *The Devil's Lane* provides an extraordinary opportunity for readers interested in women's history, African American history, southern history, and especially colonial history to explore a wide range of exciting issues.

For Life Abundant Dorothy C. Bass, Craig Dykstra, 2008-04-29. Bass and Dykstra have written extensively and collaboratively on Christian Practices, arguing that what Christians have done faithfully over time constitutes a life-giving way of life and that this living of Christianity is more primary to what it means to be Christian than doctrinal confession. That our confessions spring from faithful living rather than the other way around. This book contains numerous essays that take up the question of Christian Practices and ministry, the preparation of ministers, theological education, etc. in a post-Enlightenment understanding of the relationship of practice and head knowledge. Because the book is the result of a community conversation, it doesn't have a clear thesis, but it models its conviction that reflection on theology arises from community conversation around our life in discipleship together. An extremely helpful beginning to a conversation about ministry practices of faith, clergy preparation, etc. as the time has come to integrate the kind of learning that comes in the classroom with the kind that only comes from living the faith with others.

Amazon.com *From Chattel Slaves to Wage Slaves* Mary Turner, 1995, a very welcome addition to the literature on labour history. *Labour History Review*. This is a valuable collection of essays which gives fresh perspectives and interesting empirical data on the modes of labor bargaining by New World slaves and on the transition from chattel to wage slavery. *New West Indian Guide*. *Nieuwe West Indische Gids*. Of uniformly high quality, these essays underline the fluidity and dynamic of bargaining processes, the diversity of political and economic contexts, and the importance of external factors. They will provoke discussion on parallels between capitalist agriculture and capitalist industrial organization and will fuel debates on slave as proletarian and on the notions of peasant breach and the two economies. *Choice*. These essays provide important answers to questions relating to levels of slave subsistence, the material conditions of the enslaved, the control mechanisms of owners, the contexts which generated labor bargaining on the part of the enslaved, and the reasons owners/employers acquiesced to laborers' demands rather than rely on the coercive

power of the whip Labor History The contributors deserve commendation for making salutary advances towards developing an integrated analysis of the history of labouring people in slavery and freedom that transcends the particularities of their legal status Slavery Abolition this collection addresses an important topic and will serve as a valuable resource for scholars and students of comparative slavery in the Americas Judy Bieber University of New Mexico Albuquerque The status of labor during slavery and post emancipation in the Caribbean and the Americas Contributors investigate the terms under which slaves in the Caribbean the Southern States and Latin America worked and how they struggled to establish informal contract terms
