Post-Christian Feminisms Dr Kathleen McPhillips,Professor Lisa Isherwood,2013-05-28 This book explores the impact
and contribution of post theories in the field of Christian feminist theology Post theory is an important and cutting edge
discursive field which has revolutionized the production of knowledge in both feminism and theology This book fills a gap by
providing a text that can make authoritative statements on the use and status of post theory in feminist theology and
secondly it makes an on going contribution to the discourse of Christian feminist theology and its liberation agenda
Distinguished and established scholars contribute conclusive essays on the most recent and exciting developments in post

vices of compatriots and urged them toward redemption They gave meaning to suffering helping to prevent moral surrender
they provided support with pathos and anger which set into motion the moral imagination culminating in redemption and
freedom While the fascist regime attempted to enlist Mazzini and the prophets of the Risorgimento in support of its ideology
the most perceptive anti fascist intellectual and political leaders composed eloquent prophetic pages to sustain the resistance
against the totalitarian regime By the end of the 1960s no prophet of social emancipation has been able to move the
consciences of the Italians In this Italian story then is our story the world s story inspiration for social and political
