The World At Large Book 1 Carpe Diem:

The World At Large - Book 1 Adam Mehaffey, 2014-12-26 The following is an account of my journeys throughout the world What started off as a couple of months to get away for an adventure turned into a ten year journey of learning enlightenment hard times and moments that will never leave me including times of joy sorrow love pain near death experiences and experiences nearly worth dying for During that time I travelled to over 60 countries set foot on every continent including Antarctica worked in over half a dozen countries and saw relics from ancient civilisations and technological marvels of the modern world I saw the highest peak on earth the lowest valley and so much in between I visited places where they had never seen a white man before and countries ruled by governances ranging from democracies to theocracies to military regimes I saw the cruelty that humanity can have for each other as well as the love that can bind us all I fell in love had my heart broken a few times and broke a few hearts of my own Carpe Diem

THE ART OF DEFINING LIFE Adrian Gabriel Dumitru, Truth be told we want an over night change in our lives There are many moments when the actual reality is very difficult to handle and looks like we have no escape at all We dream of a quantum jump even if we dont understand the concept very well In few words the reality sucks and we dream of a life that we will never have because deep inside us we dont really believe we will ever meet this reality We have a fake attitude that we are looking for change but this attitude is just a mask for our fears as them not to be seen So we wonder today if there is a way of how our lifes can be changed in what we think that should be better for us Does it exists a system that we could follow and achieve our dream life But it must be a simple way otherwise we know that we will not follow the path Everything is happening is related to us and everything could happen is also related to us The magic answeare because we are looking only for magic answeares is the art of defining life Yes this is an art We need to start be honest with ourself and all the answeares to simple questions as why am i fat because i eat to much why my partner is cheating on me because i did not knew to be that perfect partner that i had to be and the list of questions will go on We need to start defining what we dont like Once we undestand that the change is in our powers and if we really want a change we will start the process of achieving the new life we dream at We dont need to go to a therapist we dont need to study motivational issues of social media and dont even need to read hundreds or thousands of books to start the change process The art of defining our lifes means that we have the courage to understand what we dont like and define very clear how our reality should look like The depression or what we call depression because many things are unclear in our minds is this huge gap between where we are now and where we want to be We are looking for a magic bridge that should help us go very easilly from one point to the other The process itself is a very simple one as long as we decide to be honest to us The art of defining yes is an art And also to live is an art Once we decide that we are brave enough to live our lifes the dream life the magic will happen cause all the magic is our powers

The Good Ancestor: A Radical Prescription for Long-Term Thinking Roman Krznaric, 2021-08-31 From leading

philosopher Roman Krznaric author of *History for Tomorrow* an urgent call to save ourselves and our planet by getting to the root of the current crisis society's extreme short sightedness As heard on NPR's TED Radio Hour When Jonas Salk developed the polio vaccine he refused to patent it forgoing profit so that more lives could be saved His radical generosity to future generations should inspire us but leading philosopher Roman Krznaric sees the opposite happening Our short term exploitative mindsets have colonized the future leaving an inexcusable chasm between the haves and have nots and mounting existential threats that have brought our species to the precipice of disaster Yet Krznaric sees reason to hope The urgent struggle for intergenerational justice calls for hugely ambitious solutions from rewiring our growth at all costs economy to giving voters of future generations a voice in our democracies But at the heart of all these changes is one we can enact within ourselves We must trade shortsightedness for long term thinking In *The Good Ancestor* Krznaric reveals six practical ways we can retrain our brains to think of the long view and to shift our allegiance from this generation to all humanity to save our planet and our future

ABSTRACT LOVE Adrian Gabriel Dumitru, 2020-12-06 There are lots of books published every year with all kinds of theories but not so many expressing the concept of abstract love I would define this a reflection of our thoughts into the real life We call it abstract cause have nothing to do with the normal dogmatic way of seeing the love stories Real love that perfect scenario with the perfect partner can be seen at any age depending of the luck our karma allows us to have But we want it so much that the Universe allows us this meeting with only one obstacle which in many cases makes the love story impossible Thinking in a positive way we redefine the impossible story as an abstract one Being a reflection of our dreams the story itself is a perfect one except the fact that you cannot enjoy the story into the real world creating the image of an illusion Impossible love stories are present all over the world After posting a long time in social media i received messages from people from all the continents telling me about them The word love being present near the word impossible creates this strange illusory and abstract way of seeing the magic of love The book is a collection of essays my thoughts about the interconnection between the illusion and reality I used a lot the term illusion cause we all look for perfect scenarios especially when it comes to love but the truth is that perfection is far far away of reality We can interconnect illusions with the real world just through impossible love stories In the end the book is a personal development writing that allows us to understand the magic of love but also a method that teaches how to enjoy life even if we dislike the word impossible
