Ultimate Adventure Novel) Hena Khan,David Borgenicht,2011-08-17 Join the youngest crew of astronauts ever to make the trip to Mars Faced with fearsome dangers and difficult decisions your choices will determine your fate on the Red Planet Will you achieve the mission and return home to Earth safely successfully earning the title of the youngest astronaut ever to make it to Mars Or will you be forced to turn back early This thrilling adventure offers twenty two possible endings but only ONE leads to the ultimate success With eye catching comic book style illustrations and information based on scientific facts related to Mars and space exploration young readers will be over the moon with this entertaining addition to the Worst Case Scenario series *Mars Child* C.M. Kornbluth,Judith Merril,2023-02-28 The colony on the red planet had no need for heroes It wanted people who knew how to solve the problem of simple survival More than anything else it wanted independence form a doomed Earth and it was in deadly danger of succeeding A gripping tale of adventure survival and defiance set on a future Mars The Martians Kim Stanley Robinson,1999 Kim Stanley Robinson s Mars trilogy is one of science fiction s most honored series with Red Mars winning the distinguished Nebula Award and both Green Mars and Blue Mars honored with the Hugo A modern day classic of the genre this epic saga deftly portrays the human stories behind Earth s most ambitious project yet the terraforming of Mars Now following the publication of his acclaimed adventure novel Antarctica Robinson returns to the realm he has made his own in a work that brilliantly weaves together a futuristic setting with a poetic vision of the human spirit engaged in a drama as ancient as mankind itself From a training mission in Antarctica to blistering sandstorms sweeping through labyrinths of barren canyons the interwoven stories of The Martians set in motion a sprawling cast of characters upon the surface of Mars As the planet is transformed from an unexplored and forbidding terrain to a troubled image of a re created Earth we meet men and women who are bound together by their experiences on Mars and with each other Among them are Michel a French psychologist dazzled by the beauty around him Maya a woman whose ill fated love affairs lead to her first voyage to Mars and Roger a tall Martian born guide who lacks social skills but has the courage to survive on the planet s dangerous yet strangely compelling surface Beginning with the First Hundred explorers generations of friends enemies and lovers are swept up in the drama that is Earth s tenuous toehold on Mars

International exploration turns into world building world building degenerates into political conflict revolution and war Following the strands of these lives and events in an age when human life has been extended for decades The Martians becomes the story of generations lived on the edge of the ultimate frontier in a landscape of constant man made and natural transformation This new masterpiece by Kim Stanley Robinson is a story of hope and disappointment of fierce physical and psychological struggles Both deeply human and scientifically cutting edge The Martians is the epic chronicle of a planet that represents one of humanity's most glorious possibilities A Letter from Kim Stanley Robinson When I finished Blue Mars I realized I wasn't done with Mars yet There were things I still wanted to say about the place and about my characters from the trilogy and there were a number of sidebar stories and characters that had found no place in the trilogy's structure I also had a couple of precursor Mars stories that did not fit the trilogy's history Exploring Fossil Canyon and Green Mars and I had held these out of my earlier story collections thinking they belonged with the Mars group So all this material was there and as I wrote Antarctica I found myself drawn back into the matter of Mars repeatedly by the discovery of possible life in meteorite ALH84001 and by the Pathfinder landing I decided to make a collection of Martian tales and as I put them in roughly chronological order I saw that they seemed to be adding up to their own larger story functioning as the trilogy's unconscious or secret history Using all kinds of modes from folk tales to scientific articles from personal accounts to the full text of a constitution I arranged things so that the book altogether tells the story of an underground and hard to see resistance to the terraforming described in the trilogy proper I had a great time doing these stories and hope they add up to my own version of a Martian Chronicles
