Theios Sophistes Theios Sophistes:

Theios Sophistes Kristoffel Demoen, Danny Praet, 2009 In this collection of interpretative essays on Flavius Philostratus's *Vita Apollonii* leading scholars and younger critics make for a combination of methodological continuity and innovation The wide range of approaches does justice to the text's high level of literary historical and philosophical religious sophistication

Approaching Apollonius Floyd O. Parker, 2025-08-05 Apollonius of Tyana resembles Jesus Christ more than does any other person in antiquity at least if what his biographer Philostratus claims is true According to their respective biographers in the *Life of Apollonius of Tyana* and in the canonical Gospels both ancient figures were renowned holy men miracle workers exorcists and itinerant teachers who lived in the first century AD Nevertheless many Bible professors and students have never heard of Apollonius Others who have heard of Apollonius often uncritically accept the testimony of Philostratus Some New Testament scholars who write about Apollonius are unaware of the numerous historical problems that plague Philostratus's book and of the other early sources that portray Apollonius as a sorcerer or charlatan This book serves as a guide for students professors or curious laypersons who are approaching the study of Apollonius for the first time This work explores ten key issues that will help the reader make an informed decision about Apollonius The book examines the ancient sources available for the study of Apollonius the historical accuracy of Philostratus's biography and the agendas of Philostratus and his royal patroness Julia Domna and provides a fulsome bibliography for those who wish to pursue these topics on their own

The Oxford Handbook of the Second Sophistic Daniel S. Richter, William A. Johnson, 2017-10-24 Focusing on the period known as the Second Sophistic an era roughly co-extensive with the second century AD this Handbook serves the need for a broad and accessible overview The study of the Second Sophistic is a relative new comer to the Anglophone field of classics and much of what characterizes it temporally and culturally remains a matter of legitimate contestation The present handbook offers a diversity of scholarly voices that attempt to define as much as is possible in a single volume the state of this rapidly developing field Included are chapters that offer practical guidance on the wide range of valuable textual materials that survive many of which are useful or even core to inquiries of particularly current interest e.g. gender studies cultural history of the body sociology of literary culture history of education and intellectualism history of religion political theory history of medicine cultural linguistics intersection of the Classical traditions and early Christianity The Handbook also contains essays devoted to the work of the most significant intellectuals of the period such as Plutarch Dio Chrysostom Lucian Apuleius the novelists the Philostrati and Aelius Aristides In addition to content and bibliographical guidance however this volume is designed to help to situate the textual remains within the period and its society to describe and circumscribe not simply the literary matter but the literary culture and societal context For that reason the Handbook devotes considerable space at the front to various contextual essays and throughout tries to keep the contextual demands in mind In its scope and in its pluralism of voices this Handbook thus represents a new approach to

the Second Sophistic one that attempts to integrate Greek literature of the Roman period into the wider world of early imperial Greek Latin Jewish and Christian cultural production and one that keeps a sharp focus on situating these texts within their socio cultural context

The Oxford Handbook of Ancient Biography Koen De Temmerman, 2020-12-10

Sophrosune in the Greek Novel Rachel Bird, 2020-12-10

This book offers the first comprehensive evaluation of ethics in the ancient Greek novel demonstrating how their representation of the cardinal virtue sophrosune positions these texts in their literary philosophical and cultural contexts Sophrosune encompasses the dispositions and psychological states of temperance self control chastity sanity and moderation The Greek novels are the first examples of lengthy prose fiction in the Greek world composed between the first century BCE and the fourth century CE Each novel is concerned with a pair of beautiful aristocratic lovers who undergo trials and tribulations before a successful resolution is reached Bird focuses on the extant examples of the genre Chariton s Callirhoe Xenophon of Ephesus Ephesiaca Longus Daphnis and Chloe Achilles Tatius Leucippe and Clitophon and Heliodorus Aethiopica which all have the virtue of sophrosune at their heart As each pair of lovers strives to retain their chastity in the face of adversity and under extreme pressure from eros it is essential to understand how this virtue is represented in the characters within each novel Invited modes of reading also involve sophrosune and the author provides an important exploration of how sophrosune in the reader is both encouraged and undermined by these works of fiction
