Religion Seth Daniel Kunin, 2003 Over the course of the twentieth century the way we understand the religious experience has been transformed Various thinkers and intellectual approaches have shaped the ways in which scholars examine rituals symbols and belief systems In *Religion, Theory, Critique* Richard King, 2017-07-18 Religion Theory Critique is an essential tool for learning about theory and method in the study of religion Leading experts engage with contemporary and classical theories as well as non Western cultural contexts Unlike other collections this anthology emphasizes the dynamic relationship between religion as an object of study and different methodological approaches and openly addresses the question of the manifold ways in which religion secular and culture are imagined within different disciplinary horizons This volume is the first textbook which seeks to engage discussion of classical approaches with contemporary cultural and critical theories Contributors write on the influence of the natural sciences in the study of religion the role of European Christianity in modeling theories of religion religious experience and the interface with cognitive science the structure and function of religious language the social scientific study of religion ritual in religion the phenomenology of religion critical theory and religion embodiment and religion the impact of colonialism and modernity theorizing religion in terms of race and ethnicity links among religion nationalism and globalization the interplay of gender sex and religion and religion and the environment Each chapter introduces the topic identifies key theorists and issues and respects the pluralistic nature of the scholarship in the field Altogether this collection scrutinizes the explicit and implicit assumptions theorists make about religion as an object of analysis

Being Religious Mladen Turk, 2013-07-12 What makes us religious What is religion This book presents relevant research and theoretical proposals for evolutionary theories of religion and socially and ecologically adaptive theories of religion Most attempts to study religious behaviors through evolutionary biology and related disciplines are still very fragmentary Mladen Turk brings those theoretical approaches in dialogue with religious studies and theology through interpretation and critique that centers on revealing hidden theological assumptions and interpreting theoretical leaps of those approaches to religion In *Being Religious* Turk expounds understanding of religion as a complex interplay of various capacities arising from and influencing our biological and cultural makeup Our religious behaviors can influence our relationship towards each other and towards our environment in significant ways He shows how some aspects of complex religious behaviors can be understood better in light of human cognition and evolutionary biology At the same time he interprets this knowledge as being preliminary and at times inadequate in its claims of completeness and exhaustiveness because religious behaviors are niched within other religious behaviors and dependent on factors that various mono causal theoretical approaches cannot fully conceptualize
