No More Bananas Jeroen Kraaijenbrink, 2019-06-21

Feel better, get done more, and become a nicer person. In this age of social media, fake news, individualism, and information overload, the certainties we relied on in the past are gone. In our quest for assurance and support, the only seemingly dependable pillar left is other people. So we look to them. But they are unsettled too. And by looking to them, we create and perpetuate our own vicious stress cycle. As a result, we lose our sensible selves. And we go bananas. But there is good news. If we look around us, there are people who withstand the collective lunacy and stay grounded. They do something that most of us have a hard time doing: they stay themselves. And the best news is that what they can do, you can do too. It doesn't require any special talents or supernatural powers. It only requires doing. In this amiable, open, and accessible book, Jeroen Kraaijenbrink takes you on his personal journey out of Bananaland. Drawing from cognitive psychology, martial arts, Saint Benedict's personal experience, and a wide range of other sources, the book offers a nine-step approach with some remarkably practical advice for keeping a cool head in the collective lunacy. Free yourself from the collective lunacy and reclaim your calm and sensible self.

They have considered evidence from a range of witnesses about whether there is a need for a Bill of Rights, including who the Bill of Rights should cover, what the Bill should include, whether it should incorporate social and economic rights, how a Bill of Rights would fit in with and affect the relationship between Parliament, the executive, and the courts, whether the Bill should refer to responsibilities, and how Government should consult the public about a future Bill. In Annex 1, there is an outline of what a draft Bill might look like. It is intended that this practical document demonstrates the potential simplicity of a Bill of Rights. The Committee is of the view that the U
