Touching Surfaces Touching Surfaces:

Touching Surfaces Anca Cristofovici, 2009 Who isn't seduced by the idea of an affinity between aging and aesthetics Yet when does aging truly begin What attributes does the aesthetic embrace Looking into startling photographic art of the past three decades this book is prompted by such questions and turns them into a meditation on how aesthetics mediates our relation to time The photographic approach of the corporeal is at the center of the book Within a phenomenological framework Cristofovici brings into focus the physical and the psychic body to read aging as a process of change and becoming over time Her understanding of aging sees beyond difference into larger patterns of perceptions that we share Offering valuable insights into aging as a process of subject construction this book will be of interest to students and scholars of visual culture photography art history age studies and theories of knowledge This cross disciplinary study that puts theory to the test of life's and art's paradoxes in an evocative style will also appeal to a wider readership interested in how photography and aging illuminate each other

Encyclopaedia Britannica Hugh Chrisholm,1911 **Urbanization and Slums** National Academies of Sciences, Engineering, and Medicine,Health and Medicine Division,Board on Global Health,Forum on Microbial Threats,2018-06-08

The urban built environment is a prime setting for microbial transmission because just as cities serve as hubs for migration and international travel components of the urban built environment serve as hubs that drive the transmission of infectious disease pathogens The risk of infectious diseases for many people living in slums is further compounded by their poverty and their surrounding physical and social environment which is often overcrowded is prone to physical hazards and lacks adequate or secure housing and basic infrastructure including water sanitation or hygiene services To examine the role of the urban built environment in the emergence and reemergence of infectious diseases that affect human health the National Academies of Sciences Engineering and Medicine planned a public workshop This publication summarizes the presentations and discussions from the workshop Note-book on Practical Solid Or Descriptive Geometry Joseph Haythorne Edgar,1880
