

Tourism and Sustainability

1

This chapter examines two basic questions:

- What is meant by making tourism more sustainable? and
- Why should governments be concerned about it?

In developing an answer, the chapter outlines why tourism is in a special position with respect to sustainable development; discusses some of the key challenges that need to be addressed; and reviews the international recognition that is being given to the sustainability of tourism. Using this as a basis, it goes on to outline some guiding principles that should be observed and then presents an agenda for sustainable tourism, in the form of twelve aims. Finally, it is shown that, although visitors and the tourism industry are becoming increasingly responsive to these issues, governments nevertheless have a critical role in creating the context and stimulating actions to ensure that tourism is more sustainable in the future.

Sustainable Tourism Rob Harris, Peter Williams, Tony Griffin, 2012-05-16 Sustainable Tourism is vital reading for anyone seeking to understand the complexities associated with sustainable tourism development and how government and industry have responded to the challenges the concept poses. The major areas addressed in this edited volume are perspectives and issues associated with the concept of sustainable tourism development, accreditation, education and interpretation, including specific examples such as Green Globe 21, the European Blue Flag Campaign and the WWF's PAN Parks Programme. Sustainable tourism case studies of tourist destination regions, natural areas and tourism enterprises drawn from Africa, Australia, the South Pacific, North America, South East Asia and the Caribbean. An impressive international editorial team has combined to present in this text not only a variety of perspectives on sustainable tourism development but also significant insights into barriers, challenges and current industry and government responses to it in various parts of the globe. Sustainable Tourism will be a welcome addition to the libraries of tourism industry professionals, individuals involved in the management of natural areas, tourism policy makers, tourism academics and students with an interest in the future sustainability of tourism and the industry that supports it.

The Routledge Handbook of Tourism and Sustainability C. Michael Hall, Stefan Gössling, Daniel Scott, 2015-02-11 Routledge Handbook of Tourism and Sustainability from C. Michael Hall, Stefan Gössling, Daniel Scott is one of the winners of the ITB Book Awards 2016 in the category Specialist tourism literature. Sustainability remains one of the major issues in tourism today. Concerns over climate and environmental change, the fallout from the global economic and financial crisis and the seeming failure to meeting UN Millennium development goals have only reinforced the need for more sustainable approaches to tourism, however they be defined. Given the centrality of sustainability in tourism curricula, policies, research and practice, it is therefore appropriate to prepare a state of the art handbook on the relationship between tourism and sustainability. This timely Handbook of Tourism and Sustainability is developed from specifically commissioned original contributions from recognised authors in the field, providing a systematic guide to the current state of knowledge on this area. It is interdisciplinary in coverage and international in scope through its authorship and content. The volume commences with an assessment of tourism's global environmental e.g. climate emissions, energy use, biodiversity, water use, land use and socio-economic effects e.g. economic impacts, employment and livelihoods, culture. This then provides the context for sections outlining the main theoretical frameworks and constructs that inform tourism and sustainability, management tools and approaches and the approaches used in different tourism and travel industry sectors. The book concludes by examining emerging and future concerns in tourism and sustainability such as peak oil, post-carbon tourism, green economy and transition tourism. This is essential reading for students, researchers and academics interested in the possibilities of sustainable forms of tourism and tourism's contribution to sustainable development. Its assessment of tourism's global impact along with its overviews of sectoral and management approaches will
