Towards Infinity Challenging The Empire:

Modern Death in Irish and Latin American Literature Jacob L. Bender, 2020-09-22 This comparative literature study explores how writers from across Ireland and Latin America have both in parallel and in concert deployed symbolic representations of the dead in their various anti colonial projects In contrast to the ghosts and revenants that haunt English and Anglo American letters where they are largely either monstrous horrors or illusory frauds the dead in these Irish Latinx archives can serve as potential allies repositories of historical grievances recorders of silenced voices and disruptors of neocolonial discourse

Sounding Imperial James Mulholland, 2013-07-30 Spoken words come alive in written verse In *Sounding Imperial* James Mulholland offers a new assessment of the origins evolution and importance of poetic voice in the eighteenth and early nineteenth centuries By examining a series of literary experiments in which authors imitated oral voices and impersonated foreign speakers Mulholland uncovers an innovative global aesthetics of poetic voice that arose as authors invented new ways of crafting textual voices and appealing to readers As poets drew on cultural forms from around Great Britain and across the globe impersonating primitive speakers and reviving ancient oral performances or fictionalizing them in verse they invigorated English poetry Mulholland situates these experiments with oral voices and foreign speakers within the wider context of British nationalism at home and colonial expansion overseas *Sounding Imperial* traces this global aesthetic by reading texts from canonical authors like Thomas Gray James Macpherson and Felicia Hemans together with lesser known writers like Welsh antiquarians Anglo Indian poets of colonialism and impersonators of Pacific islanders The frenetic borrowing movement and adaptation of verse of this time offers a powerful analytic by which scholars can understand anew poetry's role in the formation of national culture and the exercise of colonial power *Sounding Imperial* offers a more nuanced sense of poetry's unseen role in larger historical processes emphasizing not just appropriation or collusion but the murky middle range in which most British authors operated during their colonial encounters and the voices that they used to make those cross cultural encounters seem vivid and alive

Utopia or Oblivion R. Buckminster Fuller, 1963 *Utopia or Oblivion* is a provocative blueprint for the future This comprehensive volume is composed of essays derived from the lectures he gave all over the world during the 1960s Fuller's thesis is that humanity for the first time in its history has the opportunity to create a world where the needs of 100% of humanity are met This is what man tends to call utopia It's a fairly small word but inadequate to describe the extraordinary new freedom of man in a new relationship to universe the alternative of which is oblivion R Buckminster Fuller Description by Lars Muller Publishers courtesy of The Estate of Buckminster Fuller

Corridor Kate Marshall, 2013-06-01 *Corridor* offers a series of conceptually provocative readings that illuminate a hidden and surprising relationship between architectural space and modern American fiction By paying close attention to fictional descriptions of

some of modernity's least remarkable structures such as plumbing ductwork and airshafts Kate Marshall discovers a rich network of connections between corridors and novels one that also sheds new light on the nature of modern media The corridor is the dominant organizational structure in modern architecture yet its various functions are taken for granted and it tends to disappear from view But as Marshall shows even the most banal structures become strangely visible in the noisy communication systems of American fiction By examining the link between modernist novels and corridors Marshall demonstrates the ways architectural elements act as media In a fresh look at the late naturalist fiction of the 1920s 30s and 40s she leads the reader through the fetus clogged sewers of *Manhattan Transfer* to the corpse choked furnaces of *Native Son* and reveals how these invisible spaces have a fascinating history in organizing the structure of modern persons Portraying media as not only objects but processes Marshall develops a new idiom for Americanist literary criticism one that explains how media studies can inform our understanding of modernist literature

When World Views Collide John J. Pierce, 1989-05-23 Science fiction has evolved and diverged in many ways and moods *When World Views Collide* is the third and final volume in a history of the genre that began with *Foundations of Science Fiction* and continued in *Great Themes of Science Fiction* The conflicts in science fiction are conflicts about world views which Pierce defines as fundamental beliefs about the nature of man the universe and man's place in the universe Pierce presents each world view in science fiction on its own terms as expressed in the works of its partisans This final volume of the trilogy thus examines science fiction as a way of defining and delimiting humanity and human values which may well be the most important aspect of the genre today This unique and formidable study is based on a reading of much of the genre from its beginnings to its most recent publication Pierce traces relationships and erects a framework on which future scholars can build in their efforts to place the works and the fields in the totality of world literature Fans of science fiction those interested in the history and literary criticism of the genre and anyone interested in popular culture and literature and world literature will find *When World Views Collide* enlightening and thought provoking reading

The Empire and the Century Rudyard Kipling, 1905

Perpetual Carnival Colin MacCabe, 2017 Upholding literature and film together as academically interwoven *Perpetual Carnival* underscores the everlasting coexistence of realism and modernism eschewing the popularly accepted view that the latter is itself a rejection of the former Mining examples from both film and literature Colin MacCabe asserts that the relationship between film and literature springs to life a wealth of beloved modernist art from Jean Luc Godard's *Pierre le Fou* to James Joyce's *Ulysses* enriched by realism's enduring legacy The intertextuality inherent in adaptation furthers this assertion in MacCabe's inclusion of Roman Polanski's *Tess* a 1979 adaptation of Thomas Hardy's nineteenth century realist novel *Tess of the d'Urbervilles* Showcasing essays enlivened by cosmopolitan interests theoretical insight and strong social purpose *Perpetual Carnival* supports a humanities which repudiates narrow specialization and which seeks to place the discussion of film and literature firmly in the reality of current political and ideological discussion It argues for the writers and directors the
