Hidden History, Rain Engineering and UFO Reality Trevor James Constable, 2015-09-15 This book covers three interesting subject areas that span over a half century in the life of Trevor James Constable The hidden history area involves little known military men and their amazing heroics The rain engineering sections document the evolution of the technology along with the resulting proof of success the author experienced from around the world If taken further this technology could be a tremendous help to humanity Lastly the reality of UFOs covers flying biological creatures that were found to reside in the hidden ultraviolet spectrum of our skies When witnessed these beings can be mistaken for unknown craft that are thought to be piloted by humans or aliens rather than being alive in their own right and resident to the earth The pioneering work of Trevor James Constable is still ahead of its time The compelling scientific proof presented here leaves little doubt that we have much more to learn about ourselves and the world around us

The Saucerian Gabriel McKee, 2025-04-22 The strange but true biography of the colorful founder of Saucerian Books a central purveyor and promoter of flying saucer and conspiracist knowledge in the mid twentieth century Gray Barker 1925 1984 was an eccentric literary outsider filled with ideas that were out of step with the world An author and unreliable narrator of implausible stories Barker founded and operated Saucerian Books an independent publisher of books about flying saucers and other ideas at the fringes of popular discourse In The Saucerian Gabriel McKee tells the fascinating story of Barker's West Virginia based press the unique corpus of materials it published and how office copying and self publishing techniques influenced the spread of paranormal beliefs and conspiratorial worldviews over the last century Following the development of UFO subculture McKee explores the life and career of a larger than life hoaxer and originator of pseudoscientific ideas Ever an entertainer Barker established his reputation with one of the first flying saucer fanzines The Saucerian and with his first book the conspiratorial and sensationalistic They Knew Too Much about Flying Saucers By the close of the 1950s he had established a publishing imprint that brought out some of the strangest UFO related books of the era with a particular emphasis on flying saucer contactees Saucerian Books became a platform for those whose stories were too unusual implausible or crudely written for more mainstream publishers Though Barker himself was a skeptic he viewed the world of occult believers as a source of ongoing entertainment He also may have used the perceived

eccentricity of flying saucer research or ufology to obscure his homosexuality from his small town neighbors From his place on the fringes of midcentury American culture Barker left an unmatched legacy in conspiratorial concepts that have become prominent pop cultural folklore including the Men in Black the Mothman and the Philadelphia Experiment As a mastermind behind the fantastical Barker's promotional efforts were the precursor to contemporary conspiracism *Annual Report*,1882 *The ...
