Westviking The Ancient Norse In Greenland And North America:

Westviking Farley Mowat, 2024-09-28 Step into the world of sagas longships and enigmatic Norse explorers with Farley Mowat's captivating historical account Westviking The Viking sagas speak of a land called Vinland a place of abundant resources and possibilities Nearly a thousand years after the events those tales describe Farley Mowat sets out to decipher these ancient accounts and trace their path along the rugged coastlines of the North Atlantic In this celebrated classic first published in 1965 Mowat's immersive storytelling brings Viking culture to life as he tells the story of Viking settlement in Vinland now thought to include areas of Newfoundland and New Brunswick five hundred years before Christopher Columbus and John Cabot With the vivid prose that made him a bestselling author and beloved storyteller Mowat follows the stories of Norsemen like Erik the Red Leif Erikson Bjarni Herjolfsson and Thorfinn Karlsefni unravelling their struggles and triumphs as they set sail for the uncharted waters of the New World then face the challenges of a new and unfamiliar land Meticulously researched and grippingly told Mowat infuses his own adventurous spirit into the little known story of the Viking culture that once took hold on the edges of North America Westviking [sound Recording] : the Ancient Norse in Greenland and North America Farley Mowat, 197? **Westviking The Ancient Norse in Greenland and North America**, 2003 Reconstructs voyages of exploration and piracy that led to settlements on Greenland Iceland Newfoundland and Vinland from 960 to 1010 A D Westviking Farley Mowat, 1965 The Battle over America's Origin Story Brian Regal, 2022-05-06 This book examines the legends of who really discovered America It argues that histories of America's origins were always based less on empirical evidence and more on social political and cultural wish fulfillment Influenced by a complex interplay of Nativist hatred of immigrants and Aboriginal people as well as distrust of academic scholarship these legends ebbed and flowed with changing conditions in wider American society The book focuses on the actions of a collection of quirky obsessed amateur investigators who spent their lives trying to prove their various theories by promoting Welsh princes Vikings Chinese admirals Neolithic Europeans African explorers and others who they say arrived centuries before Columbus These myths acted as mitigating agencies for those who embraced them Along with recent scholarship this book makes extensive use of archival materials some of which have never been employed before It covers the period from the sixteenth century to the present It brings together separate historiographic ideas to create a unified history rather than focusing on one particular legend as most books on the subject do It shows how questions of who discovered America helped create the field of historical scholarship in this country This book does not attempt to prove who discovered America rather it tells the story of those who think they did From West to East Scott D. Stull, 2015-04-01 This volume is a collection of current work in medieval archaeology mainly as it is practiced in North America with a comprehensive view rather than a local or regional perspective allowing scholars from different regions access to research from across the medieval world It includes chapters from well established professors and up and coming scholars The majority of the papers came from the

first annual conference in medieval archaeology held at the State University of New York at Cortland in 2013 This conference gave those located in North America who were interested in medieval archaeology both of Europe and the Mediterranean world a chance to see what the latest developments were in the discipline This volume includes both methodological and theoretical approaches such as integrating remote sensing with laser scanning or exploring the definition of ethnicity chapters include Viking Vinland castles in Ireland and England several Byzantine and Islamic era sites in the eastern Mediterranean and various other topics ranging from a church in Hungary to the social construction of the medieval diet
