Junior Graphic Mavis Kitcher (Mrs),2014-08-06 **War, Women and Post-conflict Empowerment** Josephine Beoku-Betts,Fredline A. M'Cormack-Hale,2022-01-13 Since the 1991 2002 civil conflict ended in Sierra Leone the country has failed to translate the accomplishments of women s involvement in bringing the war to an end into meaningful political empowerment This is in marked contrast to other post conflict countries which have increased the political participation of women in elected and appointed office increased the representation of women in leadership positions and enacted constitutional reforms promoting women s rights Written by Sierra Leonean and Africanist scholars and experts from a broad range of disciplines this unique volume analyses the historical and contextual factors influencing women s political economic and social development in the country In drawing on a diverse array of case studies from health to education refugees to international donors the contradictions successes and challenges of women s lives in a post conflict environment are revealed making this an essential book for anyone involved in women and development Learning, Design, and Technology J. Michael Spector,Barbara B. Lockee,Marcus D. Childress,2023-10-14 The multiple related fields encompassed by this Major Reference Work represent a convergence of issues and topics germane to the rapidly changing segments of knowledge and practice in educational communications and technology at all levels and around the globe There is no other comparable work that is designed not only to gather vital current and evolving information and understandings in these knowledge segments but also to be updated on a continuing basis in order to keep pace with the rapid changes taking place in the relevant fields The Handbook is composed of substantive 5 000 to 15 000 words peer reviewed entries that examine and explicate seminal facets of learning theory research and practice It provides a broad range of relevant topics including significant developments as well as innovative uses of technology that promote learning performance and instruction This work is aimed at researchers designers developers instructors and other professional practitioners Dilemmas of Culture in African Schools Cati Coe,2005-11 In working to build a sense of nationhood Ghana has focused on many social engineering projects the most meaningful and fascinating of which has been the state s effort to create a national culture through its schools As Cati Coe reveals in *Dilemmas of Culture in African Schools* this effort has created an unusual paradox while Ghana encourages its educators to teach about local cultural traditions those traditions are transformed as they are taught in school classrooms The state version of culture now taught by educators has become objectified and nationalized vastly different from local traditions Coe identifies the state s limitations in teaching cultural knowledge and discusses how Ghanaians negotiate the tensions raised by the competing visions of modernity that nationalism and Christianity have created She reveals how cultural curricula affect authority relations in local social organizations between teachers and students between Christians and national elite and between children and elders and raises several questions about educational processes state society relations the production of knowledge and the making of Ghana s citizenry Daily Graphic Elvis Aryeh,2002-05-25

Witches of Honour Adei, Asare, 2016-05-13 It was said that Danoa didn't have any luck to go with her beauty. Her birth brought nothing but hardship upon her mother and the woman's entire family. Then just when by a twist of fate things started looking up for her, she got labelled a witch. How Danoa coped with the odds against her forms the plot of Asare Adei's new page-turner. The book was awarded third place in the Burt Book award for Ghana in 2015. **Doubtful Minds, Arise!!** Mawuli Dzitse, 2020-05-25 Have you paused for a second to consider the power behind the great innovations we see around us these days: the internet, computers, aeroplanes, cell phone technology, drone photography, multimedia stuff, LED ads etc. What do all these inventions have in common? Well, these are all products of the human mind. The creator of the universe endowed humans with an exceptional gift which, when well harnessed, enables us to think and solve problems. How well we use this gift of the mind is the subject matter of this book written by Mawuli Dzitse. In relatively few pages, the author establishes the important role the mind plays in our lives. Any manipulation of the mind has a telling effect on who we are and what we become. The mind is like an independent variable; the state of the dependent variable revolves around it. So what happens when the mind is in a doubtful state? A doubtful mind does not necessarily have to result in negative developments. In fact, doubt generates creativity. When used in moderation, doubt can be a welcoming asset in the society. It is a mover for social change. Nevertheless, doubt can be pathological if it is not managed properly. It is the prevention of negative aspects of doubt that the author focuses in this book. The underlying tone of the book posits that every human being has the capacity to use their mind to produce outcomes that can improve the quality of life than the one they came to meet. Mawuli provides answers to questions aimed at enhancing individual outlook on life as well as strategies for making the mind clean, healthy and functional. In other words, how individuals should nurse and nurture their mind food, which he identifies as information and messages. He advises readers to avoid activities that can kill dreams. The book is spiced with biblical quotations to lubricate the mind and provide spiritual wisdom to the reader. In addition, the author provides practical exercises in Self Post reading Discernment sections that allow the reader to have hands-on training and the feel of what is being advocated. It's a must-read for all who aspire to greatness and those who want to optimize the use of their greatest gift, the mind. **Doubtful Minds Arise** will be useful to students, teachers, the young and the old, men, women and all those who want to experience an intrinsically fulfilling life. Dr Ransford Antwi, Department of Communication Studies, Central University Ghana. **The Diverse Facets of Corruption in Sierra Leone** Emmanuel Saffa Abdulai, Ina Kubbe, 2024-07-15 This edited volume delves into Sierra Leone's complex post-conflict landscape. It posits that the nation's path to peace and stability hinges on robust anticorruption measures. The chapters explore Sierra Leoneans' unique perception of corruption, reflecting its political, economic, legal and socio-cultural dimensions. Moving away from mere theoretical abstraction, the book pulls together fascinating practical discussions on the success and challenges of anti-corruption tools used in Sierra Leone. Approaches used to explain corruption in this postwar fragile democratic country include issues like non-conviction based asset recovery and how it works, unexplained wealth.

Mojekwu,Lawrence Atepor,Emmanuel Adinyira,Gabriel Nani,Emmanuel Bamfo-Agyei,2025-02-07 This book is Volume 1 of the proceedings of 2023 Sustainable Education and Development Research Conference This volume concentrates on papers in the area of clean energy Despite considerable progress more than 700 million people worldwide still lack access to electricity and around 2 4 billion people continue to use harmful and polluting fuels for cooking While efforts have been made to promote renewable energy and energy efficiency they have not been fast enough to achieve Sustainable Development Goal 7 Adding to the challenge the ongoing war in Ukraine has contributed to rising global energy prices and heightened energy insecurity in Europe In response to the energy crisis some European countries are planning to accelerate the transition to renewables and increase investments in clean energy and energy

efficiency However others are considering a resurgence of coal which poses a risk to the overall green transition Between 2010 and 2020 the percentage of the global population with access to electricity increased from 83% to 91% with 1.3 billion people gaining access Nevertheless this leaves approximately 733 million people still without electricity and most of them reside in sub-Saharan Africa Achieving universal access by 2030 the annual growth rate in access needs to accelerate from 0.5 percentage points to 0.9 percentage points necessitating significant efforts in low income fragile and conflict affected countries In 2020 69% of the global population had access to clean cooking fuels and technologies While more than half of those without access to clean cooking fuels live in Asia the 20 countries with the lowest percentage of people having access to clean cooking were predominantly least developed countries in Africa The share of renewable sources in total final energy consumption reached 17.7% globally in 2019 just slightly higher than the figure for 2015 The electricity sector leads in the adoption of renewables accounting for 26.2% of total final energy consumption in 2019 while the heat and transport sectors have made limited progress Global primary energy intensity defined as global total energy supply per unit of GDP improved from 5.6 megajoules per dollar 2017 purchasing power parity in 2010 to 4.7 megajoules in 2019 However the rate of improvement 1.6% per year on average since 2015 falls short of the 3.2% annual rate needed to reach Sustainable Development Goal 7.3 International financial flows to support clean and renewable energy in developing countries reached 10.9 billion in 2019 a 23.6% decrease from 2018 This decline occurred even before the onset of the COVID-19 pandemic Over a longer five year moving average average annual commitments decreased for the first time since 2008 from 17.5 billion in 2014 to 16.6 billion in 2019 Although developing countries achieved a record of 245.7 watts per capita in installed renewable energy generating capacity in 2020 small island developing States least developed countries and landlocked developing countries have lagged behind It would take least developed countries and landlocked developing countries nearly 40 years and small island developing States almost 15 years to reach the same level of progress as the average developing country in 2020 The 2023 SEDRC conference titled Sustainable Development and Education aims to redefine the understanding of research in the continent's development and the role of researchers The conference focusses on applied research discussions and its dissemination Researchers from research institutions academicians postgraduate students politicians and industry representatives will be the primary audience for the conference proceedings *West Africa*, 2002

Curbing Indiscipline Ahmadiyya Muslim Mission, Ghana. National Convention, 2003 *Transforming Healthcare in Africa* Robert Dibie, 2025-01-14 The current available books and literature that shed light on health policies in many African countries are limited *Transforming Healthcare in Africa A Comparative Analysis* by Professor Robert Dibie examines the key players in the health system game in many African countries It explores the regulatory regimes that impact the health systems such as the Ministry of Health It also provides few case studies of the relationship between the government the environment and their citizens Apart from filling the gap in the healthcare policy in African literature the authors also seek to

examine the impacts of weak health policies and the inability to effectively formulate solid initiatives for capacity building that could lead to enhanced healthcare delivery for all their citizens Thus Dibié's book provides evidence to inform scholarly discussion on the best approaches to strengthen healthcare delivery and public health capacity in many African countries The book also sought to answer six research questions 1 How is healthcare delivery perceived by African countries 2 How are healthcare policies implemented in urban and rural regions or local governments in African countries 3 To what extent are current health services delivered to respond to all citizens' needs in African countries 4 What is the current capacity for rural or local governments to effectively engage in health service delivery 5 How can citizens living in rural and urban regions be empowered in the health development delivery system and 6 Which is the best evidence based management system adopted to improve affordable healthcare system in many African countries It also fills the gap in the literature of health systems in Africa

Low-fee Private Schooling and Poverty in Developing Countries Joanna Härmä, 2021-01-14 In *Low fee Private Schooling and Poverty in Developing Countries* Joanna Härmä draws on primary research carried out in sub-Saharan African countries and in India to show how the poor are being failed by both government and private schools The primary research data and experiences are combined with additional examples from around the world to offer a wide perspective on the issue of marketized education low fee private schooling and government systems Härmä offers a pragmatic approach to a divisive issue and an ideologically driven debate and shows how the well intentioned international drive towards education for all is being encouraged and even imposed long before some countries have prepared the teachers and developed the systems needed to implement it successfully Suggesting that governments need to take a much more constructive approach to the issue Härmä argues for a greater acceptance of the challenges abandoning ideological positions and a scaling back of ambition in the hope of laying stronger foundations for educational development

Community Participation in School Management Kazuro Shibuya, 2022-09-12 Nobody denies that trust in schools is key to success in generating any educational outcomes However trust is often eroded resulting in conflicts alienation and differentiation among school level stakeholders This book analyses school based management SBM of education through the lens of relational trust in the context of Ghana revealing how community participation in school management leads to educational outcomes Conducting quantitative analysis of headteacher questionnaires from public basic schools and qualitative analysis of case study schools in the Akatsi South District of Ghana Shibuya offers critical insights into building sustainable relationships between individual households and geographical school communities He argues it is critical to highlight relational trust as an analytical tool to examine relationships between actors and factors in school management The research finds that trust in schools is a two way mechanism and the mutuality of expectations and obligations among stakeholders is essential if children's learning outcomes are to improve With its mixed methods approach this book will be a valuable resource for scholars in comparative education those in educational development and those interested in African contexts
