What Causes War An Introduction To Theories Of International Conflict:

What Causes War? Greg Cashman, 2013-07-29 Now in a thoroughly revised and updated edition this classic text presents a comprehensive survey of the many alternative theories that attempt to explain the causes of interstate war For each theory Greg Cashman examines the arguments and counterarguments considers the empirical evidence and counterevidence generated by social science research looks at historical applications of the theory and discusses the theory's implications for restraining international violence Among the questions he explores are Are humans aggressive by nature Do individual differences among leaders matter How might poor decision making procedures lead to war Why do leaders engage in seemingly risky and irrational policies that end in war Why do states with internal conflicts seem to become entangled in wars with their neighbors What roles do nationalism and ethnicity play in international conflict What kinds of countries are most likely to become involved in war Why have certain pairs of countries been particularly war prone over the centuries Can strong states deter war Can we find any patterns in the way that war breaks out How do balances of power or changes in balances of power make war more likely Do social scientists currently have an answer to the question of what causes war Cashman examines theories of war at the individual substate nation state dyadic and international systems level of analysis Written in a clear and accessible style this interdisciplinary text will be essential reading for all students of international relations

International Politics G. R. Berridge, 2014-01-21 A new Edition of this well established introduction to international politics *International Conflict and Aggressive War* Joe Majerus, 2018-07-18 Essay from the year 2017 in the subject Politics General and Theories of International Politics grade 1 7 language English abstract The concept of universal peace cannot exist without the notion of international conflict As with any other diametrically opposed reference systems unipolar multipolar status quo revisionist

identity alterity etc it is arguably less the phenomeno hermeneutical study of these two conditions as individual occurrences than the nexus and antithetical relationship which exists between them which ultimately provides the most interesting avenues for scholarly research into their various subcategories Since the ideal of universal peace is central to this dissertation s underlying historical analysis a thorough engagement with its natural opposite therefore deserves particular attention Two important qualifications however are in order first international war and conflict as here applied shall refer exclusively to wilful and aggressively pursued manifestations thereof and thus not to the use of defensive war measures While the latter designates the legitimate recourse to military force for the purpose of repelling an attack against the territorial integrity political independence or interests of a political entity its aggressive equivalent on the other hand represents the deliberate attempt of one unit to diminish or outright destroy the aforementioned highly prized attributes of another Secondly it is important to remember that although a universal peace specifically implies the system wide preponderance of both negative and positive peace elements its possible termination meanwhile does not necessarily require the occurrence of universal war on a global scale at least not initially For even though the sudden outbreak of total systemic warfare would undoubtedly shatter world peace all by itself its fragile composition might already become endangered by developments involving far less devastating and cataclysmic convulsions History after all is rife with examples where the actual sources of transnational conflict are not just to be found in the eventual military clash of antagonists following a blatant breach of the peace by one of them

Just Peace M. Fixdal, 2012-08-20 Drawing on many of the wars and peaces of recent decades this book offers a persuasive new perspective on postwar justice In her analysis wars of succession wars for territory and the political institutions that precede and follow wars Fixdal explores the outer limits of the idea that it is worth paying almost any price for peace

The Realism Reader Colin Elman, Michael Jensen, 2014-08-12 The Realism Reader provides broad coverage of a centrally important tradition in the study of foreign policy and international politics After some years in the doldrums political realism is again in contention as a leading tradition in the international relations sub field Divided into three main sections the book covers seven different and distinctive approaches within the realist tradition classical realism balance of power theory neorealism defensive structural realism offensive structural realism rise and fall realism and neoclassical realism The middle section of the volume covers realism s engagement with critiques levelled by liberalism institutionalism and constructivism and the English School The final section of the book provides materials on realism s engagement with some contemporary issues in international politics with collections on United States U S hegemony European cooperation and whether future threats will arise from non state actors or the rise of competing great powers The book offers a logically coherent and manageable framework for organizing the realist canon and provides exemplary literature in each of the traditions and dialogues which are included in the volume Offering substantial commentary and analysis and including enhanced pedagogy to facilitate student learning The Realism Reader will provide a

Global Politics Allen Gregory Sens, Peter John Stoett, 2002

An Introduction to the Causes of War Greg Cashman, Leonard C. Robinson, 2021-04-07 This pioneering book now thoroughly updated to incorporate important research explains the causes of war through a sustained combination of theoretical insights and detailed case studies Cashman and Robinson find that while all wars have multiple causes certain factors typically combine in identifiable dangerous patterns Through their examination of World War I World War II in the Pacific the Six Day War the Indo Pakistani War of 1971 the Iran Iraq War and the US invasion of Iraq the authors lay out the complex multilevel processes by which disputes between countries erupt into bloody conflicts Ideal for a range of courses in international relations at both the undergraduate and graduate levels this focused text clearly explains theory and applies it to concrete case study examples in a way that allows students to fully understand the origins of war

International Relations Conway W. Henderson, 1998 This text is a distinctly post Cold War learning tool that will help make sense of the rapid changes now taking place in international relations The author's goal is to contribute to an understanding of a world more willing to abide by rules and norms especially as expressed in international law and a world shifting to an emphasis on the soft power of economic influence rather than relying on the hard power of military force While this text is cautiously optimistic about humankind's future as we enter the 21st century it warns about continuing turbulence caused by terrorism rogue states intense trade competition ethnic conflict and the antagonism between rich and poor states The chapters are tied together with an overarching theme that argues the world is moving from an international anarchy based on fear and military power to the early stages of an international society comprised of multiple actors cooperating to solve problems they handle on their own
