general trends The book is divided into 3 parts The first argues that activities which appear to be timeless gathering knowledge analysing disseminating and employing it are in fact time bound and take different forms in different periods and places The second part tries to counter the tendency to write a triumphalist history of the growth of knowledge by discussing losses of knowledge and the price of specialization The third part offers geographical sociological and chronological overviews contrasting the experience of centres and peripheries and arguing that each of the main trends of the period professionalization secularization nationalization democratization etc coexisted and interacted with its opposite As ever Peter Burke presents a breath taking range of scholarship in prose of exemplary clarity and accessibility This highly anticipated second volume will be essential reading across the humanities and social sciences Documentary History of Education in Upper Canada, from the Passing of the Constitutional Act of 1791 to the Close of Dr. Ryerson's Administration of the Education Department in 1876: 1841-1843 John George Hodgins,1897 **The Cambridge History of English Literature** Sir Adolphus William Ward, Alfred Rayney Waller,1916 History of the Problems of Philosophy: Introduction. pt.
