What About Law By Catherine Barnard:

What About Law? Catherine Barnard, Janet O'Sullivan, G J Virgo, 2011-03-10 Most young people considering studying law or pursuing a legal career have very little idea of what learning law involves and how universities teach law to their students. The new edition of this book which proved very popular when first published in 2007 provides a taster for the study of law a short accessible presentation of law as an academic subject designed to help 17 and 18 year old students and others decide whether law is the right choice for them as a university subject or if they have already made the choice what to expect when they start their law degree. It helps answer the question what should I study at university and counters the perception that law is a dry dull subject. What About Law shows how the study of law can be fun intellectually stimulating challenging and of direct relevance to students. Using a case study approach the book introduces prospective law students to the legal system as well as to legal reasoning critical thinking and argument. This is a book that should be in the library of every school with a sixth form every college and every university and it is one that any student about to embark on the study of law should read before they commence their legal studies. All of the authors have long experience in teaching law at Cambridge and elsewhere and all have also been involved at various times in advising prospective law students at open days and admissions conferences. Listed as one of the Six of the best law books that a future law student should read by the Guardian Law Online 8th August 2012

Criminality at Work Alan Bogg, Jennifer Collins, Mark Freedland, Jonathan Herring, 2020-03-12 From the Master and Servant legislation to the Factories

Acts of the 19th century the criminal law has always had a vital yet normatively complex role in the regulation of work relations. Even in its earliest forms it operated both as a tool to repress collective organizations and enforce labour discipline while policing the worst excesses of industrial capitalism. Recently governments have begun to rediscover criminal law as a regulatory tool in a diverse set of areas related to labour law: modern slavery, penalizing irregular migrants, licensing regimes for labour market intermediaries, wage theft supporting the enforcement of general labour standards, new forms of hybrid preventive orders, harassment at work and industrial protest. This volume explores the political and regulatory dimensions of the new criminality at work from a wide range of disciplinary perspectives including labour law, immigration law and health and safety regulations. The volume provides an overview of the regulatory terrain of criminality at work, exploring whether these different regulatory interventions represent politically legitimate uses of the criminal law. The book also examines whether these recent interventions constitute a new pattern of criminalization that operates in preventive mode and is based upon character and risk based forms of culpability. The volume concludes by reflecting upon the general themes of criminality at work comparatively from Australian, Canadian and US perspectives. *Criminality at Work* is a timely, rich and ambitious piece of scholarship that examines the many intersections between criminal law and work relations from a historical and contemporary vantage point.

Environmental Integration in Competition and Free-Movement Laws Julian Nowag, 2016-11-17. *Environmental Integration in Competition and Free Movement Laws* engages in a comprehensive analysis of the obligation of Article 11 TFEU: integration of environmental protection requirements in the three core areas of EU internal market law: competition, state aid and free movement. It develops a theoretical framework for integrating environmental and other policies and compares how environmental integration takes place within competition, state aid and free movement law. In turn, it paves a way for a more transparent and consistent integration of environment protection in these three core areas of law. Structured in three parts, this volume I offers a detailed analysis of the historical development of environmental integration, including discussions of the various intergovernmental conferences which led to a number of Treaty changes shaping the obligation itself. II It investigates which provisions and concepts within competition law, state aid law and the market freedoms can be interpreted in order to provide a clear demarcation of environmental protection and these areas of law. III It analyses how competition, state aid and free movement law allow for a balancing of the environment against restrictions in cases of conflict.

Education and Training Politics in Europe Philipp Assinger, 2020-09-11. In the past seventy years, education and training have evolved from side issues of political cooperation to political priorities of the EU. For three decades within this period, they were promoted implicitly to enable the mobility of workers in the internal market. Later on, a European dimension of education and training has developed through mobility and cooperation programs and through the lifelong learning discourse. Today, a European policy space of education and training is unfolding, which the EU is coordinating by the means of soft governance arrangements.

Research Handbook on Legal Aspects of Brexit Adam

Łazowski,Adam Cygan,2022-11-18 Illustrating the legacy of Brexit this timely Research Handbook provides a comprehensive and coherent analysis of not only the Brexit process within the UK but also what it means for both the UK and the EU within the framework of their future relationship *Implementing European Union Education and Training Policy* D. Phillips,H. Ertl,2007-05-08 The papers which make up this volume have for the most part emerged from the work of a team of young researchers based for varying periods at the Department of Educational Studies of the University of Oxford as part of an international network funded by the European Union The network known as PRESTiGE Problems of Educational Standardisation and Transition in a Global Environment involves teams at six European universities each of which can only employ young researchers from Member States other than that in which it is situated The Oxford part of PRESTiGE has been concerned with the interpretation transmission and implementation of European Union education and training policy in four Member States France Germany Sweden and the United Kingdom As the leader of the Oxford team I had the good fortune to work with young researchers from Denmark Germany Greece Sweden and Portugal Their work is included here So too are contributions from Jake Murdoch a member of the Dijon team based at the Universit de Bourgogne and Professor Ant nio N voa the leader of the Lisbon team Together the papers which we have allowed to overlap to some extent so that each one can be read independently represent a genuinely international collaborative effort to understand the intentions and the effects of EU education and training policy and we hope that they will contribute to further discussion of the important issues that those with an interest in European co operation and development will wish to pursue Intersectional Discrimination Shreya Atrey,2019-09-19 This book examines the concept of intersectional discrimination and why it has been difficult for jurisdictions around the world to redress it in discrimination law Intersectionality was coined by Kimberl Crenshaw in 1989 Thirty years since its conception the term has become a buzzword in sociology anthropology feminist studies psychology literature and politics But it remains marginal in the discourse of discrimination law where it was first conceived Traversing its long and rich history of development the book explains what intersectionality is as a theory and as a category of discrimination It then explains what it takes for discrimination law to be reimaged from the perspective of intersectionality in reference to comparative laws in the US UK South Africa Canada India and the jurisprudence of the European Courts CJEU and ECtHR and international human rights treaty bodies
