Church Plantology Peyton Jones, 2021-04-20 The first comprehensive textbook on effective church planting from a veteran church planter The Apostle Paul was a veteran church planter who laid a foundation like a wise and master builder and there is much we can learn from his example Paul indicated that there were basic skills and experiences required to successfully plant a church Church Plantology examines

the wide variety of church planting methods and ideologies in contemporary pastoral practice and outlines a biblical model based on the New Testament During his time in prison Paul spent much of his time writing to Titus Timothy and others who d served alongside him in the trenches to complete their training as church plantings We can continue to apply these time tested proven methods following the pioneering example of the early church Today the casualty rate in is high What if we could reduce the odds of failing Church Plantology by Peyton Jones is a robust guide to planting that will help planters to provide the foundation necessary to survive beyond the initial first years so that they don t end up a walking statistic

Gardens in the Wasteland Bjorn Asserhed,2025-08-04 Gardens in the Wasteland is an ethnographic study of Christian formation within three Swedish church plants working against a backdrop of advanced secularization The thesis analyses the formative practices employed by these church plants with the intention of forming persons towards a lived Christian identity Employing a situated learning theory framework it traces the formative trajectories and negotiations that emerge from these shared practices and also examines the articulations of callings and intentions within these church plants The findings reveal that the establishment of a church plant often stems from a sense of place oriented calling that encompasses a vision of vibrant Christian life and community These church plants cultivate formative practices aimed at certain teloi that guide individuals on their journeys towards a lived Christian identity Through participation in these practices individuals align them selves with the church plant s vision of Christian life This identity formation process is not static but rather involves ongoing negotiations both on a personal and community level as individuals grapple with the meaning of Christian identity and faith amidst an increasingly secularized society

Antiquity and Social Reform Dawn L. Hutchinson,2010 Although religious innovation in America has historically been the norm rather than the exception mainstream Americans have often viewed new religious movements with suspicion and occasionally with outright alarm The question motivating many studies of new religious movements has been oewhy would someone join these religions In Antiquity and Social Reform Dawn Hutchinson offers at least one answer to this often

repeated query She argues that followers of new religious movements in the 1960s 1980s specifically the Unification Church Feminist Wicca and the Nation of Yahweh considered these religions to be legitimate because they offered members a personal religious experience a connection to an ancient tradition and agency in improving their world Utilizing an historical approach Antiquity and Social Reform considers the conversion narratives of adherents and primary literature of the formative years of these movements which demonstrates that the religious experiences of the adherents and a resonance with the goals of these religions propelled members into social action **The Morning Star and Free Baptist** ,1909
