Clinical Pathways in Emergency Medicine Suresh S David, 2016-05-23 This book aims to provide condensed and crystallised knowledge providing the rationale for investigations and interventions Emergency medicine is a specialty where time and knowledge are critical factors in deciding appropriate management which could otherwise result in loss of life or limb The challenge often is to have lucid management plans whilst standing at the bedside of the patient In order to address this challenge a manuscript is needed which aims to enhance the clinical skills of

the emergency physician The objective of this book is to compile a road map for practitioners of emergency medicine which would guide them through algorithm based pathways This format is distinctive by nature for its concise presentation which facilitates easy reading and early application Written by global experts this book aims to be a truly international representation of emergency physicians who have come together to deliver contemporary concepts in emergency patient care

Improvise Medicine: Providing Care in Extreme Environments, 2nd edition Kenneth V. Iserson, 2016-01-07 Deliver quality healthcare in the most challenging field conditions Comprehensive yet compact practical and enduring Improvised Medicine Providing Care in Extreme Environments Second Edition is the one book to toss into your bag when going to practice medicine in global disaster or other resource poor settings including theaters of war regions of civil unrest and economically deprived areas Full of practical clinical pearls and field tested strategies this indispensable guide provides detailed instructions on how to work successfully outside of your comfort zone It demonstrates how to devise effective treatment solutions when the traditional tools medications equipment and staff are unavailable or when providing care outside your primary area of expertise In any crisis from power failures and computer crashes to floods tsunamis and earthquakes knowing how to deal with the unique challenges encountered saves lives and communities This reference gives you that knowledge and inspires innovative crisis resolution

FROM REVIEWS OF THE FIRST EDITION Dr Iserson has given us a most remarkable book Many readers may be familiar with David Werner's lay healthworker book Where There Is No Doctor this new volume could be titled Where There Is a Doctor But No Stuff Drawing from his experience providing care in international wilderness and disaster settings he has compiled an impressive collection of bare bones equipment and work around strategies to provide the best possible care in resource poor settings While presenting many creative examples the purpose of the book is not to offer an exhaustive list of solutions to missing resource challenges but to inspire creativity in readers who may find themselves needing to improvise

Family Medicine There is a lot of material here and if nothing else it may motivate more people to practice low tech medicine and be willing to go where health care is dependent more on caring than on cost I recommend this book to anyone who must practice in austere environments and it will be in my rucksack when I respond to the next disaster

Phytopharmacy Sarah E. Edwards, Ines da Costa Rocha, Elizabeth M. Williamson, Michael Heinrich, 2015-02-17 Healthcare professionals including doctors pharmacists and nurses are often confronted with patients who use over the counter OTC herbal medicinal products and food supplements While taking responsibility for one's own health and treatment options is encouraged many patients use these products based on limited and sometimes inaccurate information from non scientific sources such as the popular press and internet There is a clear need to offer balanced well informed advice to patients yet a number of studies have shown that generally conventionally trained health practitioners consider their knowledge about herbal medicinal products and supplements to be weak Phytopharmacy fills this knowledge gap and is intended for use by the busy pharmacist nurse or doctor as well as the expert patient and students of pharmacy and herbal medicine It presents clear practical and concise monographs on over a hundred popular herbal medicines and plant based food supplements Information provided in each monograph includes Indications Summary and appraisal of clinical and pre clinical evidence Potential interactions Contraindications Possible adverse effects An overview of the current regulatory framework is also outlined notably the EU Traditional Herbal Medicinal Products Directive This stipulates that only licensed products or registered traditional herbal medicinal products THRs which have assured quality and safety can now legally be sold OTC Monographs are included of most of the major herbal ingredients found in THRs and also some plant based food supplements which while not strictly medicines may also have the potential to exert a physiological effect

Christian theology at its core is a story about someone being in trouble In response to this trouble the triune God intervenes God identifies with those in trouble walking with them through the experience Yet the God of Christian theology goes a step further God prevails over trouble God is an overcomer Black women with breast cancer identify with this God They also see themselves in this theological narrative They see themselves in the midst of troubles troubles like racism poverty and environmental exposures that create the disease affecting their bodies They see the troubles of breast cancer their biological disposition towards more aggressive cancers later stage diagnoses poorer prognoses diminished quality of care and worse outcomes Black women also palpably feel the troubles breast cancer brings like fear physical disfigurement social isolation being stereotyped for treatment decisions abandonment and even death Black women feel the myriad troubles breast cancer brings But Black women also know God in their troubles They know an active God who identifies with and prioritizes their needs They know this God through scripture and experience as God who puts them front and center And because they know God as an overcomer and creative force they know themselves as overcomers For with God their troubles do not last always Black women with breast cancer construct a cultural theology of breast cancer out of knowing God Borne out of experiences of the Black Church womanist theology and their intersectional identities of race class and gender this theological investigation informed by anthropology examines how Black women construct an ontology of who God is and how God operates and gain a God consciousness that shapes their response to the disease Using pain faith and testimony as tools to struggle against breast cancer Black survivors theology transforms them from victims of breast cancer to change agents Out of their lives as survivors comes a theology of complex hope one cognizant of Black women's breast cancer disparities yet oriented towards Black women's achievement of health in the present and the future a sufficient hope to sustain Black women through it all Medizin auf See Dr. Jens Kohfahl, 2022-06-30 Medizin auf See Das Standardwerk für medizinische Notfälle an Bord Ein Knochenbruch bei starkem Wellengang ein seekranker Passagier oder die Notversorgung eines Crewmitglieds nach der Bergung aus dem Wasser medizinische Notfälle auf See stellen besondere Ansprüche an Ersthelfer und Schiffsärzte Was gehört in den Notfallkoffer Welche Erste Hilfe Maßnahmen eignen sich in welcher Situation Wie lassen sich Unfälle schon im Vorfeld verhindern Das umfassende Erste Hilfe Handbuch gibt Antworten auf alle wichtigen Fragen und hilft Sportbootskippern Fahrtenseglern und Berufsseeleuten im Ernstfall einen kühlen Kopf zu bewahren Die fünfte Auflage des Standardwerks zum Thema Medizin an Bord Tipps und Anleitungen von Unfallprävention bis Wiederbelebung Erste Hilfe bei Notfällen wie Luftnot Bewusstlosigkeit Blutungen Ertrinken Verbrennungen und mehr Medizin für Nichtmediziner Wie Sie als Laie Krankheiten und Symptome erkennen deuten und behandeln Tipps und Informationen zur Einrichtung der Bordapotheke in Abstimmung auf das Fahrtgebiet Mit Verzeichnis für medizinische Begriffe in Deutsch und Englisch Das umfassende Erste Hilfe Buch für Freizeitskipper und Berufsseefahrer Im Hafen dauert es in der Regel nur wenige Minuten bis

der Notarzt eintrifft Doch in Notfallsituationen auf See kann das Warten auf professionelle Hilfe Stunden oder sogar Tage dauern Umso wichtiger ist die kompetente Erste Hilfe durch Skipper und Crewmitglieder Medizin auf See ist Lehrbuch zur Vorbereitung und Nachschlagewerk für den Ernstfall in einem Die informativen Texte verzichten auf komplizierte Fachausdrücke und zahlreiche Abbildungen erleichtern das Verständnis auch für Laien Die übersichtliche Gliederung und das Farbleitsystem helfen bei der Orientierung wenn jede Sekunde zählt Dieses Notfallhandbuch darf in keiner Bordbibliothek fehlen
