Weller, 1999-02-18 Readable and practical account of wetland bird ecology and conservation [Subject Guide to Books in Print](#), 1997 *A Field Guide to the Mammals of Central America and Southeast Mexico* Fiona A. Reid, 2009-06-09 This is the only field guide to provide comprehensive coverage of the mammals of Central America and southeast Mexico The fully revised second edition includes 21 new species as well as updated illustrations and distribution maps Each species account provides measurements descriptions and comparisons with similar species and is accompanied by a range map showing where the species can be found in the region The 49 full color animal plates contain similar species portrayed to scale on the same plate with tracks and feet shown on the facing page 4 new full color maps provide visual views of parks and protected areas biomes elevations and habitat loss as well as a political map of the region The book also features a detailed introduction with sections on how and where to find mammals and a listing of the most endangered species in the region

Coral Reef Resilience in the Anthropocene Peter W. Glynn, 2025-07-21 This book chronicles six decades of exploration and ecological studies of Western American coral reefs a vibrant and diverse ecosystem in a marginal tropical Pacific region that has long been overlooked It begins with the discovery of pristine coral reefs in Panama in the 1960s follows the impact of stressful El Niño warming events that caused widespread coral bleaching and mortality in the 1980s 1990s documents coral recovery in the late 1990s and early 2000s and addresses the recent resurgence 2023 24 of extreme El Niño events leading to renewed coral mortality and setbacks in reef recovery The book delves into the challenges posed by the physical environment including recurring ENSO activity and increasing ocean acidification and examines key ecological research topics such as coral reproduction predation bioerosion symbioses and biodiversity It also highlights recent molecular genetic advancement in understanding coral endosymbionts species identification and phylogenetic relationships Along the way personal anecdotes from the eastern Pacific coral research team ranging from exhilarating to amusing

frightening and occasionally embarrassing are shared throughout this scientific journey This narrative offers a glimpse into the community composition of species and their interactions before severe bleaching and widespread coral mortality information that is necessary to help guide restoration work Sketches of coral reef animal associates by Peter W Glynn and the late Charles Messing add an artistic dimension highlighting the ecological roles of various species within the reef ecosystem Many students have made significant contributions to the understanding and conservation of eastern Pacific coral reefs with several going on to pursue careers in academia research and restoration emerging as the next generation of reef scientists The book concludes with a cautiously optimistic hope that humanity will shift away from reliance on fossil fuels and that Generation Z and their future students will discover ways to restore coral reefs for future generations Groupers of the World Matthew T. Craig, Yvonne J. Sadovy de Mitcheson, Phillip C. Heemstra, 2024-07-31 This is the sixteenth issue in the FAO series of worldwide annotated and illustrated catalogues of major groups of organisms that enter marine fisheries It contains the 159 species in 15 genera known from the serranid subfamily Epinephelinae including one species new to science There is an introductory section with general remarks on habitat and fisheries of the family a glossary of technical terms an illustrated key to each genus and all species and a detailed account for all species Species accounts include an illustration of each species scientific and vernacular names and information on habitat biology fisheries size relevant literature and distribution The Desert Encyclopedia Robert Hauptman, 2024-08-06 This reference work is the first English language A Z compendium on all topics related to deserts including geography geology meteorology climatology hydrology botany zoology anthropology art music film culture sports as well as the specific and diversely different deserts that one finds in all parts of the world Definitions explanations and clarifications will be contained in more than 2 300 entries that vary in length from a brief sentence to detailed overviews of more complex subjects The Desert Encyclopedia will be invaluable as a source of data and information but it is also enjoyable to read straight through It is also replete with line drawings black and white illustrations maps and images from outstanding photographers **W Inging it**, 2000 Nightjars and Their Allies D.T.
