Handbook of the English Novel of the Twentieth and Twenty-First Centuries Christoph Reinfandt,2017-06-12 The Handbook systematically charts the trajectory of the English novel from its emergence as the foremost literary genre in the early twentieth century to its early twenty first century status of eccentric eminence in new media environments Systematic chapters address The English Novel as a Distinctly Modern Genre The Novel in the Economy Genres Gender performativity masculinities feminism queer and The Burden of Representation class and ethnicity Extended contextualized close readings of more than twenty key texts from Joseph Conrad s Heart of Darkness 1899 to Tom McCarthy s Satin Island 2015 supplement the systematic approach and encourage future research by providing overviews of reception and theoretical perspectives **William Golding** Stephen Medcalf,1975 William Golding has observed that an appropriate epigraph for his writings would be a remake attributed to St Augustine Woe be to me if I speak of God woe be to me if I do not speak of God and has written again that Modern man is appallingly ignorant of his own nature The energy generated in this conflict between a sense of the utter impossibility of writing honestly about the profound and the intimate in the human condition and a sense of vocation to do so drives through all his work His first novel Lord of the Flies which he published at the age of forty two is still the most famous and with its revelations of the depths of savagery which lie beneath civilization perhaps the most disturbing of his books All Golding s subsequent fiction indeed is characterized by a knack of involving the reader in the perceptions of the principal characters so overpowering that as Stephen Medcalf points out His own judgement of what is happening is swallowed up The extreme example of this technique is found in Pincher Martin 1956 at the end of which the reader suddenly discovers that the whole story has taken place after death in front of eternity A number of important clues for the interpretation of Golding s outlook are to be found in his less well known Writings and Stephen Medcalf s essay surveys the whole range of his work novels stories essays autobiography poems and plays for stage and radio He finds Golding s nearest affinities in the writers of post Puritan New England such as Melville and Hawthorne but pays a special tribute to his originality stylistic strength and power to recreate the English language Stephen Medcalf 1936 2007
