Reiki Diane Stein,2011-02-02 Reiki is an ancient and profoundly simple system of laying on of hands healing derived from Tibetan Buddhism In the West Reiki has been kept highly secret for many years ESSENTIAL REIKI presents full information on all three degrees of this healing system most of it in print for the first time Teaching from the perspective that Reiki healing belongs to all people Diane Stein breaks new ground in her classic guide to this ancient practice While no book can replace the directly received Reiki attunements ESSENTIAL REIKI provides everything else that the healer practitioner and teacher of this system needs **Living Food for Longer Life** Harald W. Tietze,2002 This book is for all caring medical doctors natural therapists and sincere health seekers who would like to know the missing link to between living food and a long life

Women and Reiki Judith MacPherson,2017-07-05 Women and Reiki is the first ethnographic study of Reiki and energetic healing in Britain The book argues that if we are to build an accurate and comprehensive picture of healing we must examine the role of gender representation and power Although women healers predominate at the grass roots level these factors have been largely ignored in academic studies of New Age and alternative spiritualities The acknowledgement of women s power in these studies is to be found somewhere between male dominated biomedical approaches to health and apparently more egalitarian holistic discourse and practice Using the work of theorists such as Michel Foucault and Meredith McGuire the book shows that women healers are using Reiki and other healing spiritualities to actively engage in a politics of reclamation **Reiki** William Lee Rand,2000 Reiki a technique for stress reduction that also promotes healing allows everyone to tap into an unlimited supply of life energy The system of Reiki that became popular in the West was developed by Mikao Usui Sensei a Japanese Buddhist in 1922 23 It creates many beneficial effects including relaxation and feelings of peace security and well being Many have reported miraculous results Hospitals and doctors offices are beginning to include it as part of their therapy and this new edition describes several successful approaches now being used across the country to integrate Reiki into patient care This revised and expanded edition includes important new information on the theory and practice of Reiki including the Japanese Reiki techniques taught by Usui Sensei as well as the Hayashi Healing Guide Also included are pictures of the Usui Memorial in Tokyo and of Kurama Yama the sacred mountain where Reiki was rediscovered This book is a must for anyone wanting the latest information on Reiki Its referenced history of Reiki contains the most detailed and verifiable information currently available Written with inspiration clarity and vitality it captures the essence of

Reiki and is an excellent introduction to the subject as well as a user friendly manual for the experienced practitioner
