## **William Wordsworth 21st Century Oxford Authors:**

William Wordsworth Stephen Gill, 2010-05-20 The Wordsworth volume in the 21st Century Oxford Authors series is the most comprehensive selection currently available of the poetry and prose of one of the finest poets in the English language. The familiar poems from Wordsworth's Great Decade are all included but they are complemented by a more than usually generous selection of the best poems from his later years. The extracts from the Guide to the Lakes will be a revelation to many readers as will the political prose of the Convention of Cintra. All of the material is presented in chronological sequence so that the reader can see how Wordsworth's changing concerns were expressed in prose as well as poetry. Work which Wordsworth published is separated from that which he did not reveal which will enable the reader to trace through successive published volumes the development of Wordsworth's public poetic self while also being able to follow the growth of the body of poetry which for whatever reason Wordsworth did not choose to make public when it was written. The Prelude being the greatest and most obvious example.

**William Wordsworth** Stephen Gill, 2010-05-20 The most comprehensive selection currently available of the poetry and prose of the great Romantic poet. Introduced by a noted Wordsworth scholar, this edition includes poems from Wordsworth's Great Decade, a generous selection from his later poems, extracts from Guide to the Lakes and the political prose of the Convention of Cintra. *Literary Communication as Dialogue* Roger D.

Sell, 2020-11-15 As traced by Roger D. Sell, literary communication is a process of community making. As long as literary authors and those responding to them respect each other's human autonomy, literature flourishes as an enjoyable though often challenging mode of interaction that is truly dialogical in spirit. This gives rise to author respondent communities whose members represent existential commonalities blended together with historical differences. These heterogeneous literary communities have a larger social significance in that they have long served as counterweights to the hegemonic tendencies of modernity and more recently to postmodernity's well intentioned but restrictive politics of identity. In post postmodern times their ethos is increasingly one of pleasurable egalitarianism. The despondent anti hedonism of the twentieth century intelligentsia can now seem rather dated. Some of the papers selected for this volume develop Sell's ideas in mainly theoretical terms. But most of them offer detailed criticism of particular anglophone writers ranging from Shakespeare, Ben Jonson and other poets and dramatists of the early modern period through Wordsworth and Coleridge to Dickens, Pinter and Rushdie. *Internal Conflict in Nineteenth-Century Literature* Stefan Bolea, 2020-10-07 Internal Conflict in Nineteenth century Literature. Reading the Jungian Shadow examines the genealogy of the Jungian shadow in Romantic and post Romantic literature. Stefan Bolea analyzes the way the crisis of identity in nineteenth century literature prefigures our contemporary inner discord by means of the philosophy of literature combining literary criticism with psychoanalytical phenomenology. This book provides a deep analysis of the connection between this inner discord and the century that brought us industrialization, nationalism, modernity and the unconscious by comparing Jung's theory of the shadow with Nietzsche's.

and Cioran's versions of Antihumanism in a highly interdisciplinary landscape. Scholars of psychology, philosophy, literature, media studies, and history will find this book particularly useful. **What Has Been, A Novel by Eliza Kirkham Mathews** Jonathan Sadow, Elizabeth Neiman, 2025-09-23. What Has Been, originally published in 1801, is an affecting, lively, and accessible read for scholars and students of the long eighteenth century. This critical edition includes an extensive introduction, notes, and appendices. Eliza Kirkham Mathews' portrait of a struggling female novelist connects and also distinguishes What Has Been from novels by now canonical female authors of this period. Simultaneously, it provides a new vantage point for assessing obscure or long forgotten novels. This volume will be of great interest to teachers and scholars of the long eighteenth century and Romantic era and on such far-ranging topics as the eighteenth and nineteenth century novel, British Romanticism, feminism, women's literature, the gothic, and the novel of purpose or Jacobin/anti-Jacobin novel.

Literature as Dialogue Roger D. Sell, 2014-08-15. How is it that some texts achieve the status of literature? Partly at least because the relationship they allow between their writers and the people who respond to them is fundamentally egalitarian. This is the insight explored by members of the book's literary communication network who, in this new book, develop fresh approaches to literary works of widely varied provenance. The authors examined have written in Ancient Greek, Tang Dynasty Chinese, Middle Modern, and Contemporary English, German, Romanian, Polish, Russian, and Hebrew. But each and every one of them is shown as having offered their human fellows something which, despite some striking appearances to the contrary, amounts to a welcoming invitation. This, their audiences have then been able to negotiate in a spirit of dialogical interchange. Part I of the book poses the question: How, in offering their invitation, have writers respected their audiences' human autonomy? This is the province of what book scholars call communicational criticism. Part II asks how an audience negotiating a literary invitation can be encouraged to respect the human autonomy of the writer who has offered it. In book parlance, such encouragement is the task of mediating criticism. These two modes of criticism naturally complement each other and, in their shared concern for communicational ethics, ultimately seek to further a post-postmodern world that would be global without being hegemonic. *Great War Modernism* Nanette Norris, 2015-12-16. New Modernist Studies, while reviving and revitalizing modernist studies through lively scholarly debate about historicity, aesthetics, politics, and genres, is struggling with important questions concerning the delineation that makes discussion fruitful and possible. This volume aims to explore and clarify the position of the so-called core of literary modernism in its seminal engagement with the Great War. In studying the years of the Great War, we find ourselves once more studying the giants about whom there is so much more to say, as well as adding hitherto marginalized writers and a few visual artists to the canon. The contention here is that these war years were seminal to the development of a distinguishable literary practice which is called modernism, but perhaps could be further delineated as Great War modernism, a practice whose aesthetic merits can be addressed through formal analysis. This collection of essays offers new insight into canonical British, American, European modernism of the Great War period, using

the critical tools of contemporary expansionist modernist studies By focusing on war and on the experience of the soldier and of those dealing with issues of war and survival these studies link the unique forms of expression found in modernism with the fragmented violent and traumatic experience of the time Translating Tagore's Stray Birds into Chinese Yuanyi Ma,Bo Wang,2020-12-27 Translating Tagore's Stray Birds into Chinese explores the choices in poetry translation in light of Systemic Functional Linguistics SFL and illustrates the ways in which readers can achieve a deeper understanding of translated works in English and Chinese Focusing on Rabindranath Tagore's Stray Birds a collection of elegant and philosophical poems as a source text Ma and Wang analyse four Chinese target texts by Zheng Zhenduo Yao Hua Lu Jinde and Feng Tang and consider their linguistic complexities through SFL This book analyses the source text and the target texts from the perspectives of the four strata of language including graphology phonology lexicogrammar and context Ideal for researchers and academics of SFL Translation Studies Linguistics and Discourse Analysis Translating Tagore's Stray Birds into Chinese provides an in depth exploration of SFL and its emerging prominence in the field of Translation Studies The Contemporary Review ,2011 **Notes and Queries** ,2009 The Oxford Encyclopedia of the Modern World Peter N. autobiographical texts express a prior essence or whether they are the site of continual acts of self fashioning     **American Book Publishing Record** ,2003     Twentieth-century British Literary Biographers Steven Serafin,1995 Designed to introduce the lives and works of those individuals who influenced the development of literary biography as a recognizable genre during the century     Biographical Books, 1950-1980 R.R.
