Excerpt from *Willing Letters and Papers* Edited With a Biographical Essay of Thomas Willing of Philadelphia 1731 1821

There is only one thing in the career of Thomas Willing of which as one of his descendants I am not proud That is that his firm sold slaves Of course it was in accord with the custom of the times everyone did it in the colonial period With this exception however the descendants of Thomas Willing can look upon his whole career with great pride In this connection I take a personal pleasure in the fact that my paternal grandfather manumitted his slaves in Frederick County Maryland in the late twenties and the early thirties of the nineteenth century

The Disaffected Aaron Sullivan,2019-04-05 Elizabeth and Henry Drinker of Philadelphia were no friends of the American Revolution Yet neither were they its enemies The Drinkers were a merchant family who being Quakers and pacifists shunned commitments to both the Revolutionaries and the British They strove to endure the war uninvolved and unscathed They failed In 1777 the war came to Philadelphia when the city was taken and occupied by the British army Aaron Sullivan explores the British occupation of Philadelphia chronicling the experiences of a group of people who were pursued pressured and at times persecuted not because they chose the wrong side of the Revolution but because they tried not to choose a side at all For these people the war was neither a glorious cause to be won nor an unnatural rebellion to be suppressed but a dangerous and costly calamity to be navigated with care Both the Patriots and the British referred to this group as the disaffected perceiving correctly that their defining feature was less loyalty to than a lack of support for either side in the dispute and denounced them as opportunistic apathetic or even treasonous Sullivan shows how Revolutionary authorities embraced desperate measures in their quest to secure their own legitimacy suppressing speech controlling commerce and mandating

military service In 1778 without the Patriots firing a shot the king's army abandoned Philadelphia and the perceived threat from neutrals began to decline as did the coercive and intolerant practices of the Revolutionary regime By highlighting the perspectives of those wearied by and withdrawn from the conflict *The Disaffected* reveals the consequences of a Revolutionary ideology that assumed the nation's people to be a united and homogenous front *The Papers of Alexander Hamilton* Alexander Hamilton, Harold Coffin Syrett, Jacob Ernest Cooke, 1961 Why do smokers claim that the first cigarette of the day is the best What is the biological basis behind some heavy drinkers belief that the hair of the dog method alleviates the effects of a hangover Why does marijuana seem to affect one's problem solving capacity *Intoxicating Minds* is in the author's words a grand excavation of drug myth Neither extolling nor condemning drug use it is a story of scientific and artistic achievement war and greed empires and religions and lessons for the future Ciaran Regan looks at each class of drugs describing the historical evolution of their use explaining how they work within the brain's neurophysiology and outlining the basic pharmacology of those substances From a consideration of the effect of stimulants such as caffeine and nicotine and the reasons and consequences of their sudden popularity in the seventeenth century the book moves to a discussion of more modern stimulants such as cocaine and ecstasy In addition Regan explains how we process memory the nature of thought disorders and therapies for treating depression and schizophrenia Regan then considers psychedelic drugs and their perceived mystical properties and traces the history of placebos to ancient civilizations Finally *Intoxicating Minds* considers the physical consequences of our co evolution with drugs how they have altered our very being and offers a glimpse of the brave new world of drug therapies [Underwriters of the United States](#) Hannah Farber, 2021-10-28 Unassuming but formidable American maritime insurers used their position at the pinnacle of global trade to shape the new nation The international information they gathered and the capital they generated enabled them to play central roles in state building and economic development During the Revolution they helped the U S negotiate foreign loans sell state debts and establish a single national bank Afterward they increased their influence by lending money to the federal government and to its citizens Even as federal and state governments began to encroach on their domain maritime insurers adapted preserving their autonomy and authority through extensive involvement in the formation of commercial law Leveraging their claims to unmatched expertise they operated free from government interference while simultaneously embedding themselves into the nation's institutional fabric By the early nineteenth century insurers were no longer just risk assessors They were nation builders and market makers Deeply and imaginatively researched *Underwriters of the United States* uses marine insurers to reveal a startlingly original story of risk money and power in the founding era *Catalog of Copyright Entries. Thomas Barclay (1728-1793) Priscilla H. Roberts, Richard S. Roberts, 2008 This is the first ever biography of Thomas Barclay the first American consul to serve the United States abroad and the man who in 1786 successfully negotiated our first treaty with an Arab African or Muslim nation It is the story of an Ulster born immigrant building his fortune as a Philadelphia merchant in international trade then losing it as he gives priority to his adopted country's fight to gain and build on independence It tells how after emigrating to Philadelphia in the 1760s Barclay became a leading member of the Irish community a successful merchant ship owner and political activist This biography follows his move to France with his wife and three small children when the Continental Congress named him consul in 1781 There before an American consular service existed before Congress knew a consul from a consul general Thomas Barclay did whatever was needed wherever it was needed To shipping naval and other tasks Congress added an audit of American public expenditures in Europe since 1776 Then Jefferson and Adams added diplomacy in Barbary where Barclay negotiated a rare tribute free treaty of commerce and amity with the Sultan of Morocco His personal relationships with Benjamin Franklin John Adams and Thomas Jefferson reveal as much about them as about him On assignment for President Washington in 1793 he became the first American diplomat to die in a foreign country in the service of the United States
