

Installation manual Operating instructions

Gas Boiler

GS 117 E / GS 152 E / GS 192 E

Installation, calibration and commissioning must be undertaken by a specialist.

The boiler must be connected according to the regulations in force and may only be operated in well-ventilated areas.

Control devices must be checked for functioning. Fittings, immersion sleeves, connection seals, drain valve etc. must be checked and if necessary retightened or replaced.

General terms and conditions of warranty state that all installations must be carried out by a suitably trained and qualified plumber who observes the local norms and regulations.

The installation and maintenance record must be entirely completed and the user has to be instructed accordingly.

Efficient operation can only be guaranteed if the instructions of this manual are followed.

Warranty does not cover any damage caused due to non-observance of this manual and the technical rules in force.

The system is to be checked annually by a specialised company. In addition, occurring defects must be repaired immediately.

This document should be handed over to the client on completion of the installation.
