Homosexuality, Transsexuality, Psychoanalysis and Traditional Judaism Alan Slomowitz, Alison Feit, 2019-03-04

Homosexuality Transsexuality Psychoanalysis and Traditional Judaism explores the often incommensurable and irreconcilable beliefs and understandings of sexuality and gender in the Orthodox Jewish community from psychoanalytic rabbinic feminist and queer perspectives The book explores how seemingly irreconcilable differences might be resolved The book is divided into two separate but related sections The first highlights the divide between the psychoanalytic academic and traditional Orthodox Jewish perspectives on sexual identity and orientation and the acute psychic and social challenges faced by gay and lesbian members of the Orthodox Jewish world The contributors ask us to engage with them in a dialogue that allows for

authentic conversation The second section focuses on gender identity especially as experienced by the Orthodox transgender members of the community It also highlights the divide between theories that see gender as fluid and traditional Judaism that sees gender as strictly binary The contributors write about their views and experiences from both sides of the divide They ask us to engage in true authentic dialogue about these complex and crucial emotional and religious challenges Homosexuality Transsexuality Psychoanalysis and Traditional Judaism will be of great interest to psychoanalysts and psychoanalytic psychotherapists as well as members and leaders of Jewish communities working with LGBTQ issues

*Lesbian Identity and Contemporary Psychotherapy*

Eda Goldstein, Lois Horowitz, 2013-05-13 Recent contributions to the psychoanalytic and psychotherapeutic literature have moved beyond traditional views of lesbianism but they have tended to address lesbian identity from one theoretical vantage point or another Rarely have new ideas been linked to the process issues that arise in actual clinical situations *Lesbian Identity and Contemporary Psychotherapy* undertakes this very task and in so doing documents the therapeutic gains that result from validating lesbian sexual identity and life experience Drawing on contemporary relational thinking and new

perspectives on gender and sexuality Goldstein and Horowitz describe and illustrate an affirmative approach to clinical work with lesbians at various stages of the life cycle Adolescent young adult and family issues are all brought within their compass Making ample use of case vignettes they demonstrate the ways in which therapists can elicit their patients personal narratives of self acceptance as lesbians and coming out experiences work with the transference and countertransference dynamics subsequent to such disclosures and finally explore the collaborative process through which therapist and patient seek to understand their therapeutic interaction A range of life circumstances are brought within the authors refreshingly hands on clinical approach Special consideration is given to issues arising when lesbians date and initiate romantic relationships and to the relationship problems that develop in ongoing partnerships during the middle and later years The book concludes by discussing the issues faced by lesbian therapists in treating lesbian patients and in interacting with heterosexual colleagues An exemplary overview of newer views of lesbian identity and of the challenges of lesbian life Lesbian Identity and Contemporary Psychotherapy is equally valuable as an up to date relationally informed guide to clinical work with lesbian patients
