Wild Finns Journey Discovering Australia:

Wild Finn's Journey Timo Kallioheimo, 2015-11-25 Timos done them all To the Gemfields from the building sites hes had some epic journeys filled with adventures that tested his strength courage and determination through the trials tribulations triumphs and tragedies They include a five year sail around the world with his wife and daughter on their yacht Iceberg In 1999 he was the first man to paddle an outrigger sea kayak from Fraser Island to Cape York Peninsula It was a four and a half month journey pitting him against some of the worst weather conditions not to mention the man eating sharks and saltwater crocodiles and he survived by collecting rainwater and hunting for his food with his throwing spear Then in 2003 he walked one thousand plus kilometers pulling a trolley loaded with his supplies from Mareeba to Cape York the most northern point of Australia A few years later in 2006 he rode a pushbike 2 300 kilometers from the Gold Coast to Kangaroo Island in South Australia With a combination of memories and daily journal entries he captures the spirit of Australia in a very unique way Like his Viking ancestors Timo not only survived but beat the odds Who's who in Australia , 1994

Quantifying Diets of Wildlife and Fish Michael C. Calver,Neil R. Loneragan,2024-05 Quantifying Diets of Wildlife and Fish presents different techniques available to study animal diets Ecologists determine animal diets to build natural history knowledge test hypotheses in ecological theory and make informed management decisions for important ecosystems Many researchers use techniques traditionally applied to the animals they study rather than techniques with the greatest potential for the aims of each project In an effort to encourage researchers to consider new approaches this book focuses on the techniques rather than on particular groups of organisms or specific environments With contributions from leading ecologists chapters explore experimental design observational techniques including new technologies stomach contents and faecal analysis eDNA tracers and stable isotopes They also cover the latest multivariate methods of analyses suitable for describing animal diets and feeding relationships as well as testing hypotheses relevant to ecological theory environmental management and biological conservation The expert knowledge provided will encourage readers to look beyond the boundaries of their specialties assist in testing important hypotheses and provide insights into management problems The examples in this book cover a range of vertebrates and invertebrates as well as different environments to open these methods up for novice ecologists and stimulate lateral thinking in more experienced researchers
