in settling the affairs of his realm he resigned his dukedom into the hands of his son that he might spend the remainder of his days in rest and peace He died in 922 five years after his resignation He was only ten years old when his father was assassinated He became involved in long and arduous wars with the King of France which compelled him to call in the aid of more Northmen from the Baltic His new allies in the end gave him as much trouble as the old enemy with whom they came to help William contend and he found it very hard to get them away He wanted at length to make peace with the French king and to have them leave his dominions but they said That was not what they came for Richard had a beautiful daughter named Emma who afterward became a very important political personage as will be seen more fully in a subsequent chapter Richard died in 996 after reigning fifty four years The Illustrated London News ,1912 *History of William the Conqueror* Jacob Abbott,2020-12-13 William I Old Norman Willame I Old English Willelm I c 1028 1 9 September 1087 usually known as William the Conqueror and sometimes William the Bastard 2 a was the first Norman King of England reigning from 1066 until his death in 1087 The descendant of Viking raiders he had been Duke of Normandy since 1035 After a long struggle to establish his power by 1060 his hold on Normandy was secure and he launched the Norman conquest of England in 1066 The rest of his life was marked by struggles to consolidate his hold over England and his continental lands and by difficulties with his eldest son **All about William the Conqueror ...
