William Morris Romantic To Revolutionary Spectre:

William Morris Edward Palmer Thompson,1977 **William Morris** E. P. Thompson,2011 This biographical study is a window into 19th century British society and the life of William Morris the great craftsman architect designer poet and writer who remains a monumental and influential figure to this day This account chronicles how his concern with artistic and human values led him to cross what he called the river of fire and become a committed socialist committed not only to the theory of socialism but also to the practice of it in the day to day struggle of working women and men in Victorian England While both the British Labor Movement and the Marxists have venerated Morris this legacy of his life proves that many of his ideas did not accord with the dominant reforming tendencies providing a unique perspective on Morris scholarship

William Morris E.P. Thompson,2011-03-07 William Morris the great 19th century craftsman designer poet and writer remains a monumental figure whose influence resonates powerfully today As an intellectual and author of the seminal utopian *News from Nowhere* his concern with artistic and human values led him to cross what he called the river of fire and become a committed socialist committed not to some theoretical formula but to the day by day struggle of working women and men in Britain and to the evolution of his ideas about art about work and about how life should be lived Many of his ideas accorded none too well with the reforming tendencies dominant in the labour movement nor with those of orthodox Marxism which has looked elsewhere for inspiration Both sides have been inclined to venerate Morris rather than to pay attention to what he said In this biography written less than a decade before his groundbreaking *The Making of the English Working Class* E P Thompson brought his now trademark historical mastery passion wit and essential sympathy It remains unsurpassed as the definitive work on this remarkable figure by the major British historian of the 20th century **The**

Oxford Handbook of British Romantic Prose Robert Morrison,2024 The Oxford Handbook of British Romantic Prose is a full length essay collection devoted entirely to British Romantic nonfiction prose Organized into eight parts each containing between five and nine chapters arranged alphabetically the Handbook weaves together familiar and unfamiliar texts events and authors and invites readers to draw comparisons reimagine connections and disconnections and confront frequently stark contradictions within British Romantic nonfiction prose but also in its relationship to British Romanticism more generally and to the literary practices and cultural contexts of other periods and countries The Handbook builds on previous scholarship in the field considers emerging trends and evolving methodologies and suggests future areas of study Throughout the emphasis is on lucid expression rather than gnomic declaration and on chapters that offer not a dutiful survey but evaluative assessments that keep an eye on the bigger picture yet also dwell meaningfully on specific paradoxes and the most telling examples Taken as a whole the volume demonstrates the energy originality and diversity at the crux of British Romantic nonfiction prose It vigorously challenges the traditional construction of the British Romantic movement as focused too exclusively on the accomplishments of its poets and it reveals the many ways in which scholars of the period are

steadily broadening out and opening up delineations of British Romanticism in order to encompass and thoroughly evaluate the achievements of its nonfiction prose writers

Adventure Capitalism Raymond Craib, 2022-07-05 Imagine a capitalist paradise An island utopia governed solely by the rules of the market and inspired by the fictions of Ayn Rand and Robinson Crusoe Sound far fetched It may not be The past half century is littered with the remains of such experiments in what Raymond Craib calls libertarian exit Often dismissed as little more than the dreams of crazy rich Caucasians exit strategies have been tried out from the southwest Pacific to the Caribbean from the North Sea to the high seas often with dire consequences for local inhabitants Based on research in archives in the US the UK and Vanuatu as well as in FBI files acquired through the Freedom of Information Act Craib explores in careful detail the ideology and practice of libertarian exit and its place in the histories of contemporary capitalism decolonization empire and oceans and islands Adventure Capitalism is a global history that intersects with an array of figures Fidel Castro and the Koch brothers American segregationists and Melanesian socialists Honolulu based real estate speculators and British Special Branch spies soldiers of fortune and English lords Orange County engineers and Tongan navigators CIA operatives and CBS news executives and a new breed of techno utopians and an old guard of Honduran coup leaders This is not only a history of our time but given the new iterations of privatized exit seasteads free private cities and space colonization it is also a history of our future

Incomplete, True, Authentic, and Wonderful History of May Day Peter Linebaugh, 2016-04-01 May Day is about affirmation the love of life and the start of spring so it has to be about the beginning of the end of the capitalist system of exploitation oppression war and overall misery toil and moil So writes celebrated historian Peter Linebaugh in an essential compendium of reflections on the reviled glorious and voltaic occasion of May 1st It is a day that has made the rich and powerful cower in fear and caused Parliament to ban the Maypole a magnificent and riotous day of rebirth renewal and refusal These reflections on the Red and the Green out of which arguably the only hope for the future lies are populated by the likes of Native American anarcho communist Lucy Parsons the Dodge Revolutionary Union Movement Karl Marx Jos Mart W E B Du Bois Rosa Luxemburg SNCC and countless others both sentient and verdant The book is a forceful reminder of the potentialities of the future for the coming of a time when the powerful will fall the commons restored and a better world born anew

Men in Prison Victor Serge, 2014-04-01 Everything in this book is fictional and everything is true wrote Victor Serge in the epigraph to Men in Prison I have attempted through literary creation to bring out the general meaning and human content of a personal experience The author of Men in Prison served five years in French penitentiaries 1912 1917 for the crime of criminal association in fact for his courageous refusal to testify against his old comrades the infamous Tragic Bandits of French anarchism While I was still in prison Serge later recalled fighting off tuberculosis insanity depression the spiritual poverty of the men the brutality of the regulations I already saw one kind of justification of that infernal voyage in the possibility of describing it Among the thousands who suffer and are crushed in prison and how few men really know that prison I was

perhaps the only one who could try one day to tell all There is no novelist's hero in this novel unless that terrible machine prison is its real hero It is not about me about a few men but about men all men crushed in that dark corner of society Ironically Serge returned to writing upon his release from a GPU prison in Soviet Russia where he was arrested as an anti Stalinist subversive in 1928 He completed *Men in Prison* and two other novels in semi captivity before he was rearrested and deported to the Gulag in 1933 Serge's classic prison novel has been compared to Dostoyevsky's *House of the Dead* Koestler's *Spanish Testament* Genet's *Miracle of the Rose* and Solzhenitsyn's *One Day in the Life of Ivan Denisovitch* both for its authenticity and its artistic achievement This edition features a substantial new introduction by translator Richard Greeman situating the work in Serge's life and times

Birth of Our Power Victor Serge, 2015-01-01 *Birth of Our Power* is an epic novel set in Spain France and Russia during the heady revolutionary years 1917-1919 Serge's tale begins in the spring of 1917 the third year of mass slaughter in the blood and rain soaked trenches of World War I When the flames of revolution suddenly erupt in Russia and Spain Europe is burning at both ends Although the Spanish uprising eventually fizzles in Russia the workers peasants and common soldiers are able to take power and hold it Serge's tale of two cities is constructed from the opposition between Barcelona the city we could not take and Petrograd the starving beleaguered capital of the Russian Revolution besieged by counter revolutionary Whites Between the romanticism of radicalized workers awakening to their own power in a sun drenched Spanish metropolis to the grim reality of workers clinging to power in Russia's dark frozen revolutionary outpost From victory in defeat to defeat in victory The novel was composed a decade after the revolution in Leningrad where Serge was living in semicaptivity because of his declared opposition to Stalin's dictatorship over the revolution

Gothic Romanticism Tom Duggett, 2022-06-03 *Gothic Romanticism* Wordsworth Architecture Politics Form offers a revisionist account of both Wordsworth and the politics of antiquarianism in the late eighteenth and early nineteenth centuries As a historically driven study that develops a significant critique and revision of genre and theory based approaches to the Gothic it covers many key works by Wordsworth and his fellow Lake Poets Samuel Taylor Coleridge and Robert Southey The second edition incorporates new materials that develop the argument in new directions opened up by changes in the field over the last decade The book also provides a sustained reflection upon Romantic conservatism including the political thought and lasting influence of Edmund Burke New material places the book in wider and longer context of the political and historical forms seen developing in Wordsworth and proposes Gothic Romanticism as the alternative line of cultural development to Victorian Medievalism

Catastrophism Sasha Lilley, David McNally, Eddie Yuen, James Davis, 2012-10-05 We live in catastrophic times The world is reeling from the deepest economic crisis since the Great Depression with the threat of further meltdowns ever looming Global warming and myriad dire ecological disasters worsen with little if any action to halt them their effects rippling across the planet in the shape of almost biblical floods fires droughts and hurricanes Governments warn that there is no alternative to the bitter medicine they prescribe or risk

devastating financial or social collapse The right whether religious or secular views the present as catastrophic and wants to turn the clock back The left fears for the worst but hopes some good will emerge from the rubble Visions of the apocalypse and predictions of impending doom abound Across the political spectrum a culture of fear reigns Catastrophism explores the politics of apocalypse on the left and right in the environmental movement and examines why the lens of catastrophe can distort our understanding of the dynamics at the heart of these numerous disasters and fatally impede our ability to transform the world Lilley McNally Yuen and Davis probe the reasons why catastrophic thinking is so prevalent and challenge the belief that it is only out of the ashes that a better society may be born The authors argue that those who care about social justice and the environment should jettison doomsaying even as it relates to indisputably apocalyptic climate change Far from calling people to arms they suggest catastrophic fear often results in passivity and paralysis and at worst reactionary politics

Critique of the Gotha Program Karl Marx, 2022-09-20 Marx's Critique of the Gotha Program is a revelation It offers the fullest elaboration of his vision for a communist future free from the shackles of capital but also the state Neglected by the statist versions of socialism whether Social Democratic or Stalinist that left a wreckage of coercion and disillusionment in their wake this new annotated translation of Marx's Critique makes clear for the first time the full emancipatory scope of Marx's notion of life after capitalism An erudite new introduction by Peter Hudis plumbs the depth of Marx's argument elucidating how his vision of communism and the transition to it was thoroughly democratic At a time when the rule of capital is being questioned and challenged this volume makes an essential contribution to a real alternative to capitalism rather than piecemeal reforms In the twenty first century when it has never been more needed here is Marx at his most liberatory

The Cambridge History of the Gothic: Volume 2, Gothic in the Nineteenth Century Catherine Spooner, 2020-08-06 This second volume of The Cambridge History of the Gothic provides a rigorous account of the Gothic in British American and Continental European culture from the Romantic period through to the Victorian fin de siècle Here leading scholars in the fields of literature theatre architecture and the history of science and popular entertainment explore the Gothic in its numerous interdisciplinary forms and guises as well as across a range of different international contexts As much a cultural history of the Gothic in this period as an account of the ways in which the Gothic mode has participated in the formative historical events of modernity the volume offers fresh perspectives on familiar themes while also drawing new critical attention to a range of hitherto overlooked concerns From Romanticism to Penny Bloods Dickens and even the railway system the volume provides a compelling and comprehensive study of nineteenth century Gothic culture

Capital and Its Discontents Sasha Lilley, 2011-03-07 Capitalism is stumbling empire is faltering and the planet is thawing Yet many people are still grasping to understand these multiple crises and to find a way forward to a just future Into the breach come the essential insights of Capital and Its Discontents which cut through the gristle to get to the heart of the matter about the nature of capitalism and imperialism capitalism's vulnerabilities at this juncture and what can we do to hasten its demise

Through a series of incisive conversations with some of the most eminent thinkers and political economists on the Left including David Harvey Ellen Meiksins Wood Mike Davis Leo Panitch Tariq Ali and Noam Chomsky *Capital and Its Discontents* illuminates the dynamic contradictions undergirding capitalism and the potential for its dethroning The book challenges conventional wisdom on the Left about the nature of globalization neoliberalism and imperialism as well as the agrarian question in the Global South It probes deeply into the roots of the global economic meltdown the role of debt and privatization in dampening social revolt and considers capitalism's dynamic ability to find ever new sources of accumulation whether through imperial or ecological plunder or the commodification of previously unpaid female labor The Left luminaries in *Capital and Its Discontents* look at potential avenues out of the mess as well as wrong turns and needless detours drawing lessons from the history of post colonial states in the Global South struggles against imperialism past and present the eternal pendulum swing of radicalism the corrosive legacy of postmodernism and the potentialities of the radical humanist tradition At a moment when capitalism as a system is more reviled than ever here is an indispensable toolbox of ideas for action by some of the most brilliant thinkers of our times

The Transnational Activist Stefan Berger, Sean Scalmer, 2017-11-28 This book provides the first historical and comparative study of the transnational activist A range of important recent scholarship has considered the rise of global social movements the presence of transnational networks and the transfer or diffusion of political techniques Much of this writing has registered the pivotal role of transnational or global activists However if the significance of the transnational activist is now routinely acknowledged then the history of this actor is still something of a mystery Most commentators have associated the figure with contemporary history Hence much of the debate around transnational activism is ahistorical and claims for novelty are not often based on developed historical comparison As this volume argues it is possible to identify the transnational activist in earlier decades and even centuries But when did this figure first appear What are the historical conditions that nurtured its emergence What are the principal moments in the development of the transnational activist And do the transnational activists of the Internet age differ in number or nature from those of earlier years These historical questions will be at the heart of this volume

Patriarchy of the Wage Silvia Federici, 2021-08-24 At a time when we are witnessing a worldwide expansion of capitalist relations a feminist rethinking of Marx s work is vitally important In Patriarchy of the Wage Silvia Federici bestselling author and the most important Marxist feminist of our era asks why Marx s crucial analysis of the exploitation of human labor was blind to women s work and struggle on the terrain of social reproduction Why was Marx unable to anticipate the profound transformations in the proletarian family that took place at the turn of the nineteenth century creating a new patriarchal regime Patriarchy of the Wage does more than just redefine classical Marxism It is an urgent call for a new kind of radical politics

Stop, Thief! Peter Linebaugh, 2014-03-01 In this majestic tour de force celebrated historian Peter Linebaugh takes aim at the thieves of land the polluters of the seas the ravagers of the forests the despoilers of rivers and the removers of mountaintops Scarcely a society has existed on the face of the earth that has not had commoning at its heart Neither the state nor the market say the planetary commoners These essays kindle the embers of memory to ignite our future commons From Thomas Paine to the Luddites from Karl Marx who

concluded his great study of capitalism with the enclosure of commons to the practical dreamer William Morris who made communism into a verb and advocated communizing industry and agriculture to the 20th century communist historian E P Thompson Linebaugh brings to life the vital commonist tradition He traces the red thread from the great revolt of commoners in 1381 to the enclosures of Ireland and the American commons where European immigrants who had been expelled from their commons met the immense commons of the native peoples and the underground African American urban commons Illuminating these struggles in this indispensable collection Linebaugh reignites the ancient cry STOP THIEF

An Anthology of London in Literature, 1558-1914 Geoffrey G. Hiller, Peter L. Groves, Alan F. Dilnot, 2019-02-06 This book is an anthology of extracts of literary writing in prose verse and drama about London and its diverse inhabitants taken from the accession of Queen Elizabeth I in 1558 to the outbreak of the Great War in 1914 The 143 extracts divided into four periods 1558 1659 1660 1780 1781 1870 and 1871 1914 range from about 250 words to 2 500 Each of the four periods has an introduction that deals with relevant social geographical and historical developments and each extract is introduced with a contextualizing headnote and furnished with explanatory footnotes In addition the general introduction to the anthology addresses some of the literary questions that arise in writing about London and the book ends with many suggestions for further reading It should appeal not only to the general reader interested in London and its representation but also to students of literature in courses about reading the city

Global Slump David McNally, 2010-12-09 Global Slump analyzes the global financial meltdown as the first systemic crisis of the neoliberal stage of capitalism It argues that far from having ended the crisis has ushered in a whole period of worldwide economic and political turbulence In developing an account of the crisis as rooted in fundamental features of capitalism Global Slump challenges the view that its source lies in financial deregulation The book locates the recent meltdown in the intense economic restructuring that marked the recessions of the mid 1970s and early 1980s Through this lens it highlights the emergence of new patterns of world inequality and new centers of accumulation particularly in East Asia and the profound economic instabilities these produced Global Slump offers an original account of the financialization of the world economy during this period and explores the intricate connections between international financial markets and new forms of debt and dispossession particularly in the Global South Analyzing the massive intervention of the world's central banks to stave off another Great Depression Global Slump shows that while averting a complete meltdown this intervention also laid the basis for recurring crises for poor and working class people job loss increased poverty and inequality and deep cuts to social programs The book takes a global view of these processes exposing the damage inflicted on countries in the Global South as well as the intensification of racism and attacks on migrant workers At the same time Global Slump also traces new patterns of social and political resistance from housing activism and education struggles to mass strikes and protests in Martinique Guadeloupe France and Puerto Rico as indicators of the potential for building anti capitalist opposition to the damage that neoliberal capitalism is inflicting on the lives of millions

William Morris; Romantic to Revolutionary. By E. P. Thompson Edward P. Thompson, 1955 **Abolishing Fossil Fuels**

Kevin A. Young, 2024-05-14 Climate destruction is a problem of political power. We have the resources for a green transition but how can we neutralize the influence of Exxon and Shell? Abolishing Fossil Fuels argues that the climate movement has started to turn the tide against fossil fuels just too gradually. The movement's partial victories show us how the industry can be further undermined and eventually abolished. Activists have been most successful when they've targeted the industry's enablers: the banks, insurers, and big investors that finance its operations; the companies and universities that purchase fossil fuels; and the regulators and judges who make life-and-death rulings about pipelines, power plants, and drilling sites. This approach has jeopardized investor confidence in fossil fuels, leading the industry to lash out in increasingly desperate ways. The fossil fuel industry's financial and legal enablers are also its Achilles' heel. The most powerful movements in US history succeeded in similar ways. The book also includes an in-depth analysis of four classic victories: the abolition of slavery, battles for workers' rights in the 1930s, Black freedom struggles of the 1950s and 1960s, and the fight for clean air. Those movements inflicted costs on economic elites through strikes, boycotts, and other mass disruption. They forced some sectors of the ruling class to confront others, which paved the way for victory. Electing and pressuring politicians was rarely the movement's primary focus. Rather, gains in the electoral and legislative realms were usually the byproducts of great upsurges in the fields, factories, and streets. Those historic movements show that it's very possible to defeat capitalist sectors that may seem invulnerable. They also show us how it can be done. They offer lessons for building a multiracial working-class climate movement that can win a global green transition that's both rapid and equitable.

If you ally dependence such a referred **William Morris Romantic To Revolutionary Spectre** ebook that will present you worth, get the very best seller from us currently from several preferred authors. If you desire to hilarious books, lots of novels, tale, jokes, and more fictions collections are as a consequence launched, from best seller to one of the most current released.
