James Shufflebotham, 2025-09-10 This book develops a model of the gravitation in Music that is hoped to benefit practitioners analysts and educators from many musical backgrounds Audio spectrum analysis is undertaken in conjunction with Chord Scale Theory as taught at Berklee College of Music to reveal Gravi Tone Series GS specific mappings of twelve distance values onto all twelve pitch classes It is argued that the GS are attributed by a four quality psychological process entitled Gravi Tone Series Filtering Conceptual metaphor theory is used to reason that the distance is metaphorically shaped by our embodied understanding of physical distance The construction of meaning is then extrapolated by consulting John Shepherd and Peter Wicke's Music and Cultural Theory 1997 establishing how Gravitonicity may be negotiable for different individuals and in the same individual at different times 175 With a potentially unifying perspective on all types of scales harmony and functionality Gravitonicity could belong to the general theory of music Anthology of Musical Forms - Structure & Style
