The Agility Advantage Amanda Setili, 2014-08-28 How to win market leadership in a fast changing world In the past companies could pick a strategy and stick with it maintaining a competitive edge for years But today companies surge ahead fall behind or even disappear in mere months If you and your company are going to thrive for the long run you need to continuously evolve change and stay a step ahead of your competition The ability to see and capitalize on new opportunities is the cornerstone of agility Successful technology based firms like Google Tesla and Amazon have all mastered agility within their core business practices but companies in any sector can and must learn to spot new opportunities and make the right choices about what to invest in what to change and what to abandon The Agility Advantage first shows how to identify those aspects of your business where agility is most crucial where the business environment is

changing fast and which elements have the greatest impact on the customer's decision to buy Amanda Setili then shows how to master the three components of agility Market agility Gain ideas from your most demanding and forward thinking customers and from outside your industry Engage observe and mix with customers to identify the opportunities created by their changing demands Decision agility Anticipate the changes that may affect you and turn even troubling trends into opportunities Design your strategy to maximize learning and to manage risk Generate diverse alternatives and make fast fact based decisions about which to pursue Execution agility Build new capabilities shed what doesn't fit and take the first steps in a new direction Experiment then reinforce and build on what works Enlist and inspire your organization around a compelling purpose and grant employees the autonomy and resources to continuously adapt and adjust course The future will present more opportunities but narrower windows to capture them With a wealth of valuable information and practical strategies The Agility Advantage is essential reading to help any organization adapt and thrive both today and tomorrow

Exploiting Agility for Advantage David L. Francis, 2020-09-07 Many argue that all organisations should strive to be agile Exploiting Agility for Advantage takes a radically different view The author's research shows that requisite agility is required meaning not too much not too little of the right type and delivering wanted agility deliverables This is a book for managers who want their enterprise to be intelligently agile but don't know how to achieve this Part One shows why agility is a strategic option for commercial and not for profit enterprises Part Two describes in detail a seven step agility orientated development programme for work groups or entire organisations Part

Three provides academic underpinning on organisational agility for researchers and students of management Agility isn't easy and developing it is going to need much more than a simple slogan This book offers very helpful insights into the detailed mechanisms that underpin this capability and practical guidance around how to build and embed them Prof John Bessant Author videos <https://vimeo.com/449735611> <https://vimeo.com/461491774> **On the Role of the Actuary in a Changing World** John Gordon,2015-07-01 The 2008 financial crisis was a reminder to people both inside and outside the Actuarial Profession of just how complex the Financial Services industry has become and just how tied the World economy presently is to its fortunes This wide ranging non technical book examines our present economic model the industry's present function and the appropriateness of the Actuarial Profession's present strategy and direction in the aftermath of that crisis and in the context of the challenges that lie ahead The book's central premise is that far from being a one off the 2008 crash is merely a portent of things to come and that the Profession the industry it serves and even the political and economic models under which both presently operate are in need of fundamental reform if they are to equip our society to withstand the challenges that are going to be visited upon it This book seeks to explore the reasons why and to open the debate about what shape that reform ought to take As such it should be of interest not just to actuaries but to anyone who has an interest in our collective future
