The Model 3022 stores up to 64 minutes of conversation at standard sample rate, or up to 128 minutes at reduced sample rate.

SPACE SAVINGS

Zetron's modular PSAP & dispatch products provide a high degree of functionality in a small space because several modules may be mounted in the space of a single panel. The Model 3022 requires only one quarter of a 5.25" x 19" panel space. Its unique modular design allows it to be directly mounted into existing Motorola CENTRACOM® Series II console panels by replacing two unused modules in a channel control panel. For use in other consoles, the Model 3022 may be mounted in the rack adapter or may be mounted in the desk adapter.

RECORDING CONTROL

Recording is controlled automatically and requires no operator action. Even while playing back an older message, recording of a new message may take place. Recording can be controlled by several methods: voice-operated (VOK),
