

WHAT IS A ZOMBIE?

TYPES OF ZOMBIE

Once a human has turned into a zombie, they will enter a three stage process of transformation. All will go through these stages, but factors such as climate, body mass and the amount of infected material will have an impact.

To be clear, there are not stages of the 'Dead' - there will be variations later. For now, these humans have already transformed into the undead. They are fully infected with zombie virus and display symptoms of the zombie condition. In 2006, Dr. Michael described the

zombie-fighting community when he declared that 'all zombies are not equal'. He later went on to expand on a scientific theory of zombie evolution, which describes how the undead develop over the course of time after infection. For many years, scientists had offered accounts of desiccated zombies or huge blooded corpse monsters, but the fledgling science of 'Zombology' had no unified theory to explain these anomalies. Dr. Michael's stages of zombie evolution changed all of this and they are presented below.

WHAT IS A ZOMBIE? CLIMATIC CONDITIONS

Scientists have now proved that the climatic conditions which have the greatest influence on the 'type' of creature that zombies will form after 24hrs. The average fighters in hot and humid, tropical or sub-tropical climates are likely to have more powerful and slower zombies whereas fighters in cold and drier conditions will have slow and weak groups.

Hot	Hot
Humid	Humid

ZOMBIE EVOLUTION

STAGE 1 FRESH (NOSE, NECK, BLOOD)

These walking dead have completed the zombie virus in the last few days. They have a pale, greyish skin colour and a bloodless complexion. Some will appear almost human in appearance, others will be showing major body parts irregularly. Their movements will be stiff and awkward. They will be unable to speak and they will have an unending interest in feeding on your flesh.

STAGE 2 PUTREFIED (NOSE, FINGER, NAILS, BIG BOYS, SLAVES)

In this stage, zombies generally start to show signs of decomposition. For example, you may see pale blue marks and green fungus patches appearing. However, the decomposition process is greatly accelerated by the zombie condition. In humid conditions, insects and/or gastric liquid may reach the corpse in an extremely fast

STAGE 3 DESICCATED (CLASSED, RED, STIFF, STENCHES, NIPPS)

Most of the walking dead will move into this 'classic' zombie phase of development. These creatures will be being frozen in appearance. Their skin will be hot and charred, their muscles dry and cracked. By this stage, their clothes will be mostly torn and their eyes turned to hollow shells, even gelatinous in some cases. Climate conditions will determine the actual level of moisture in a zombie corpse, with dry conditions leading to a desiccated creature in which the skin hangs like a ruff, almost transparent. Over time, fungi or other body parts may just fall off with the creature becoming difficult to recognise.

ONCE INFECTED BY BITE OR FLUID EXCHANGE, A HUMAN WILL TRANSFORM INTO A ZOMBIE AND MUST THROUGH THESE ZOMBIE TYPES

TROPICAL High temperature, high humidity

Most zombies of this kind will exhibit a variable response to the climate and trigger surrounding these walking corpses.

- High numbers of zombies
- Higher rate of decomposition
- More frequent growth

DESERT High temperature, low humidity

Other referred to as 'desert zombies', the dead will be the most wary with most decomposition than in other regions.

- Fastest zombies
- Weak/fragile
- Slowest/less abundant types

TEMPERATE Low temperature, high humidity

Systems about corpse in form of types of zombie in the cold climate. Depending on the season, most will move towards the more plant.

- Most zombies will be at the advanced stage within a month
- Lower numbers than the tropics

TUNDRA Low temperature, low humidity

Others will often keep the dead fully frozen and may in fact with. As the time can see zombie change to a particularly cold and bloody state.

- Zombies may be frozen and not dormant
- May be hard to decompose

very little that seriously concerned me or those around me Our main concern each day was whether or not we d be able to survive another day in class without being caught sleeping stealing a glance at a girl we just knew we were going to marry some day and finally what story we could tell that would have all of our friends on the edge of their seat as they listened to what our most recent adventure into juvenile delinquency was Never was there a time that we gave any consideration to zombies the living dead or having our brains eaten while we were still alive In fact zombies had not yet at that time even been discovered by anyone that we knew about so why worry about something or someone that didn t exist Such is not the case anymore Almost daily you hear stories about the coming zombie apocalypse and how to survive it Yet while the topic is popular the verdict is still out about how to deal with it or what you should must do to survive a zombie attack So with that in mind I decided to create the official zombie survival manuscript and settle the matter for all time Well that didn t go quite as well as I expected it would No what I learned is that there are so many differing opinions on surviving a zombie attack or apocalypse that it was simply impossible to put into any sense of authoritative writing exactly what must be done I thought that perhaps it would be best to just let people tell me their stories their theories and their sincere beliefs about zombies and how best to not become one of them So with that in mind I began interviewing those that would openly talk about the subject matter and help me understand as best I could what in the world is going on Though I was able to interview several people ALL of them insisted that they remain hidden under a veil of secrecy and would not allow me to give their real names where they lived or how they came about with their theories on surviving a zombie apocalypse I agreed to their terms and have transcribed all of the interviews and put them into this writing No names or locations will be revealed but the information is valuable viable and important enough in my most humble opinion that it is a must read for anyone seriously or even not so seriously considering what is happening in the world today The Zombie Survival Guide ,2010
