Derek Drinkwater

Thinkers Of The Twenty Years Crisis Inter War Idealism Reassessed:

Thinkers of the Twenty Years' Crisis : Inter-War Idealism Reassessed David Long, Peter Wilson, 1995-12-14 This book reassesses the contribution to international thought of some of the most important thinkers of the inter war period It takes as its starting point E H Carr s famous critique which more than any other work established the reputation of the period as the utopian or idealist phase of international relations theorizing This characterization of inter war thought is scrutinized through ten detailed studies of such writers as Norman Angell J A Hobson J M Keynes David Mitrany and Alfred Zimmermann The studies demonstrate the diversity of perspectives within idealism and call into question the descriptive and analytical value of the entire notion It is concluded that idealism is an overly general term useful for scoring debating points rather than providing a helpful category for analysis

Thinkers of the Twenty Year' Crisis David Long, Peter Wilson, 2023 This work reassesses the contribution to international thought of some of the most important thinkers of the inter war period and challenges the commonly held view that writing on international relations between the two World Wars was universally utopian

International Relations and the First Great Debate Brian Schmidt, 2013-08-15 This book provides an authoritative account of the controversy about the first great debate in the field of International Relations Of all the self images of International Relations none is as pervasive and enduring as the notion that a great debate pitting idealists against realists took place in the 1940s The story of the first great debate continues to structure the contemporary identity of International Relations yet in recent years revisionist historians have challenged the conventional wisdom that the field experienced such a debate Drawing on expert contributors working in Canada Europe the United Kingdom and the United States this book includes key participants in the historiographical controversy The book assembles the existing scholarship and provides a thorough analysis of the status of the first great debate in the history of International Relations It is an invaluable examination of the causes and future direction of idealist and realist arguments International Relations and the First Great Debate will be of interest to students and scholars concerned with the foundations of International Relations

The Hidden History of Realism S. Molloy, 2006-02-04 Challenging the received notions of International Relations theory about a central tradition Realism Molloy demonstrates how a belief in a mode of theorization has distorted Realism forcing the theory of power politics in IR into a paradigmatic strait jacket that is simply inadequate and inappropriate to the task of encompassing its diversity

Harold Laski: Problems of Democracy, the Sovereign State, and International Society P. Lamb, 2004-06-11 Harold Laski born in England at the end of the Nineteenth century is a theorist who helped shape political thought throughout much of the first half of the Twentieth century Primarily recognized for his contribution to the British pluralist tradition arguing against state sovereignty and advocating devolution of political power to non state organizations Laski s latest writings focused on the relation between capitalism and the sovereign state This book explores both Laski s pluralist thinking as well as his later writings on the problems of maintaining and developing democracy and freedom both

within and in the relations between capitalist societies Lamb seeks to explore Laski's work on international politics and its continuing significance to the understanding of politics and the state today *Marxism and the Origins of International Relations* José Ricardo Villanueva Lira, 2021-10-20 This book investigates to what extent and in what ways Marxist writings and precepts on imperialism informed the so-called idealist stage of International Relations IR Though the formative years of International Relations coincide with a vibrant period in Marxist political thought Marxism is strikingly absent from the historiography of the discipline Building on the work of revisionist scholars the book reconstructs the writings of five benchmark IR thinkers Villanueva analyzes the cases of John Hobson Henry Brailsford Leonard Woolf Harold Laski and Norman Angell to explore the influence that Marxism played in their thinking and in the idealist years of the discipline more generally He ultimately demonstrates that although Marxist thought has been neglected by mainstream IR disciplinary historians it played a significant role in the discipline's early development As such this book both challenges the exclusion of Marxist thought from the mainstream disciplinary histories of IR and contributes to a deeper understanding of the role it played in early 20th century IR theory **Sir Harold Nicolson and International Relations** Derek

Drinkwater, 2005-02-17 Sir Harold Nicolson 1886-1968 is well known as a diarist man of letters diplomatic historian gardener and broadcaster Nicolson's bestselling diaries and letters his many biographies including the highly acclaimed official life of King George V and his numerous essays and broadcasts have made him in the words of his friend and fellow MP Robert Bernays an international figure of the second degree Yet there was more to this urbane man than his finely observed diary stylish writing and Sissinghurst Castle Garden in Kent the joint creation of Nicolson and his wife the writer V Sackville West He also produced a rich and ambitious corpus of writing on the theory and practice of international relations Nicolson's aristocratic background and upbringing in a diplomatic household followed by an Oxford classical education and twenty years in diplomacy combined to forge his distinctive philosophy of international affairs As a young attaché in Constantinople before the Great War and in Whitehall during the conflict at the Paris Peace Conference of 1919 and en poste in Persia and Germany throughout the 1920s Nicolson was ideally placed to observe the maelstrom of international politics As an anti-appeasement and wartime MP 1935-1945 he became a highly regarded authority on international relations During and after World War II he turned his mind to the issues of European integration world government and the ultimate possibility of global peace Nicolson has been the subject of two fine biographies This is the first study of his contribution to international thought He emerges from it as an important international thinker alongside theorists as diverse as E H Carr and Leonard Woolf Nicolson's international thought contains elements of realism and idealism while retaining a distinctive character and a breadth and consistency that render it unique **Technological Internationalism and World Order** Waqar H.

Zaidi, 2021-06-03 Explores the place of science and technology in international relations through early attempts at international governance of aviation and atomic energy **The Emergence of Globalism** Or Rosenboim, 2017-03-28 How

competing visions of world order in the 1940s gave rise to the modern concept of globalism During and after the Second World War public intellectuals in Britain and the United States grappled with concerns about the future of democracy the prospects of liberty and the decline of the imperial system Without using the term globalization they identified a shift toward technological economic cultural and political interconnectedness and developed a globalist ideology to reflect this new postwar reality The Emergence of Globalism examines the competing visions of world order that shaped these debates and led to the development of globalism as a modern political concept Shedding critical light on this neglected chapter in the history of political thought Or Rosenboim describes how a transnational network of globalist thinkers emerged from the traumas of war and expatriation in the 1940s and how their ideas drew widely from political philosophy geopolitics economics imperial thought constitutional law theology and philosophy of science She presents compelling portraits of Raymond Aron Owen Lattimore Lionel Robbins Barbara Wootton Friedrich Hayek Lionel Curtis Richard McKeon Michael Polanyi Lewis Mumford Jacques Maritain Reinhold Niebuhr H G Wells and others Rosenboim shows how the globalist debate they embarked on sought to balance the tensions between a growing recognition of pluralism on the one hand and an appreciation of the unity of humankind on the other An engaging look at the ideas that have shaped today's world The Emergence of Globalism is a major work of intellectual history that is certain to fundamentally transform our understanding of the globalist ideal and its origins Ethics and International Relations H. Seckinelgin, H. Shinoda, 2001-10-10 The end of the Cold War and the discussions concerning the process of globalization have brought the study of international politics face to face with new issues such as human rights humanitarian interventions environmental concerns global social movements and health issues like HIV AIDS The challenges arising from these issues require novel theoretical approaches that are not limited to the traditional ethical concerns of international politics The contributors to this volume re-examine existing approaches and formulate new ethical perspectives for the twenty-first century This volume challenges the status quo in international relations and provides an opening for an alternative theoretical debate for those who are interested in international political theory **Beyond the Balance of Power** Peter Jackson, 2013-12-05 This is a major study of French foreign and security policy before during and after the First World War Peter Jackson examines the interplay between two contending conceptions of security the first based on traditional practices of power politics and the second on internationalist doctrines that emerged in the late nineteenth century He pays particular attention to the social and political context in which security policy was made and to the cultural dynamics of the policy-making process The result is a comprehensive reassessment of France's security policy in the era of the Great War The book reconsiders the evolution of French war aims and reinterprets the peace policy of the Clemenceau government in 1919 It provides a perspective on the foreign policy of successive French governments in the early 1920s and also shows that internationalist ideas were far more influential over this entire period than is commonly understood **The British Study of Politics in the Twentieth Century** Jack

Hayward, Brian Barry, Archie Brown, 2003-05-01 The distinctive strength of political science in Britain is revealed in this indispensable guide to modern British scholarship in the field As well as charting the development of the discipline the essays examine the innovative contributions to the study of nationalism totalitarianism and authoritarianism and the influential British approach to international relations The fourteen distinguished authors have provided a major contribution to our understanding of the contemporary state of political science **Internationalism and Nationalism in European**

Political Thought C. Holbraad, 2003-03-04 The political history of modern Europe may be seen in terms of continuous interaction between rivalling forms of internationalism and diverse kinds of nationalism This book distinguishes analyses and presents the different kinds and varieties of internationalist and nationalist ideology that have played significant parts in the international politics of the region particularly since the Second World War It indicates the origins of each pattern of thought traces its development brings out its relationship with other strands of thought and outlines its major political influences The emphasis is on internationalist support for and nationalist opposition to the principal regional international organizations

21st Century Political Science: A Reference Handbook John T Ishiyama, Marijke Breuning, 2011 Offering full coverage of major subthemes and subfields within political science this reference handbook includes entries on topics from theory and methodology to international relations and institutions **The Liberal International Theory Tradition in Europe** Knud Erik Jørgensen, 2021-01-04 This book examines how the liberal international theory tradition evolved in Europe It includes nine chapters focusing on both historical and contemporary branches of liberal IR theorizing The combined portrait of the prominent IR theory orientation shows a long and rich theoretical tradition but also a tradition that the scholarly community rarely fully recognize It is currently somewhat challenged and therefore in need of further advances Concerning the historical branches the authors present a truly European tradition that thus was not only present in a few countries The contributors introduce examples of liberal theorizing that IR scholars tend to dismiss and they trace the boundaries between the liberal and other theoretical traditions Given the prominence of the tradition the book is surprisingly among the first to present a transnational perspective on the development of the liberal international theory tradition in Europe

Civilization Giovanni Borgognone, Patricia Chiantera-Stutte, 2022-09-29 Civilizations or rather narratives about civilizations matter not only as research subjects in textbooks literary and scientific essays but also in politics This seems to be the case in civilizational states such as China Russia Turkey and Syria Also in Western countries in recent decades the notion of civilization has often been used in public discourse political parties and leaders have referred in particular to the need to protect Western civilization calling in this regard for policies to restrict immigration from Muslim countries In 2022 the narrative on civilization was used to legitimize the Russian invasion of Ukraine The studies in this collected volume reconstruct how civilizational paradigms and narratives have been used to explain political relations to define the global order to justify attempts to gain hegemony over particular geopolitical areas and to make predictions on global developments

in specific times of crisis In particular this book analyzes the concepts of civilization as they have been used in the intellectual and political discourse in periods particularly critical for global relations and for the consolidation or contestation of the West's dominant role in international national politics and academic discourse

The Realism Reader Colin Elman, Michael Jensen, 2014-08-12 The Realism Reader provides broad coverage of a centrally important tradition in the study of foreign policy and international politics After some years in the doldrums political realism is again in contention as a leading tradition in the international relations sub field Divided into three main sections the book covers seven different and distinctive approaches within the realist tradition classical realism balance of power theory neorealism defensive structural realism offensive structural realism rise and fall realism and neoclassical realism The middle section of the volume covers realism's engagement with critiques levelled by liberalism institutionalism and constructivism and the English School The final section of the book provides materials on realism's engagement with some contemporary issues in international politics with collections on United States U S hegemony European cooperation and whether future threats will arise from non state actors or the rise of competing great powers The book offers a logically coherent and manageable framework for organizing the realist canon and provides exemplary literature in each of the traditions and dialogues which are included in the volume Offering substantial commentary and analysis and including enhanced pedagogy to facilitate student learning The Realism Reader will provide a one stop shop for undergraduates and masters students taking a course in contemporary international relations theory with a particular focus on realism

Failed Imagination? Andrew Williams, 2013-01-18 The main purpose of this book is to explain how mainly American but also British and other Western policy makers have planned and largely managed to create an international order in their own image the so called New World Order It shows how this seismic shift in international relations has developed through the major global wars of the twentieth and twenty first centuries It uses a wide variety of historical archival material to give the background to the current and historical American obsession with creating the world order one that both reflects the American national interest but also can be said to have established the major security economic organisational and normative pillars of our epoch In addition it provides excellent background reading for the current debate about American foreign policy and the origins of neo conservatism in international relations This edition updates a very successful first edition of the title with additional material to take into account changes in the global order since 2001 and the beginning of the War on Terror

The International Thought of Alfred Zimmern Tomohito Baji, 2021-03-11 This book is a comprehensive examination into the shifting international thought of Alfred Zimmern a Grecophile intellectual one of the most prominent liberal internationalists and the world's first professor of IR Identifying the writings of Burke and cultural Zionism as two important ideological sources that defined his project for empire and global order this book argues that Zimmern can best be understood as an apostle of Commonwealth It shows that while his proposals changed from cosmopolitan democracy to Euro Atlanticism and to world federal government they were constantly

shaped by the organizing principles of a professedly universal British Commonwealth. It was the empire transhistorically chained to classical Athens.

A World Safe for Democracy G. John Ikenberry, 2020-09-22

A sweeping account of the rise and evolution of liberal internationalism in the modern era. For two hundred years the grand project of liberal internationalism has been to build a world order that is open, loosely rules based and oriented toward progressive ideas. Today this project is in crisis, threatened from the outside by illiberal challengers and from the inside by nationalist populist movements. This timely book offers the first full account of liberal internationalism's long journey from its nineteenth century roots to today's fractured political moment. Creating an international space for liberal democracy, preserving rights and protections within and between countries and balancing conflicting values such as liberty and equality, openness and social solidarity and sovereignty and interdependence: these are the guiding aims that have propelled liberal internationalism through the upheavals of the past two centuries. G. John Ikenberry argues that in a twenty-first century marked by rising economic and security interdependence, liberal internationalism reformed and reimagined remains the most viable project to protect liberal democracy.

The Engaging World of E-book Books: A Thorough Guide Revealing the Pros of Kindle Books: A Realm of Convenience and Versatility E-book books, with their inherent portability and simplicity of availability, have freed readers from the constraints of physical books. Gone are the days of lugging cumbersome novels or meticulously searching for particular titles in bookstores. Thinkers Of The Twenty Years Crisis Inter War Idealism Reassessed Introduction

In the digital age, access to information has become easier than ever before. The ability to download Thinkers Of The Twenty Years Crisis Inter War Idealism Reassessed has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Thinkers Of The Twenty Years Crisis Inter War Idealism Reassessed has opened up a world of possibilities. Downloading Thinkers Of The Twenty Years Crisis Inter War Idealism Reassessed provides numerous

advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Thinkers Of The Twenty Years Crisis Inter War Idealism Reassessed has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Thinkers Of The Twenty Years Crisis Inter War Idealism Reassessed. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Thinkers Of The Twenty Years Crisis Inter War Idealism Reassessed. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Thinkers Of The Twenty Years Crisis Inter War Idealism Reassessed, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Thinkers Of The Twenty Years Crisis Inter War Idealism Reassessed has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Thinkers Of The Twenty Years Crisis Inter War Idealism Reassessed Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before

making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works.
