Thinking Outside The Box: How to Think Creatively By Applying Critical Thinking and Lateral Thinking Bruce Walker, DISCOVER How to ACTIVE Your Creative Mind What does it mean to be limited to inside the box as opposed to being outside The key according to experts on the subject is to apply creative thinking to your daily life Perhaps up until this time you ve never really thought of yourself as a creative person Many of us go through life thinking that the only people capable of being creative are artists writers and others who have been trained to apply this thought process in specific and sporadic circumstances The truth of the matter is that every single one of us is capable of being super creative We ve just allowed it to lie fallow unused When anything lies unused for so long it may be difficult to stimulate it back to life This book can help you seek out answers to your everyday problems easier You don t need to be an artist a business executive a physicist or even a scientist to employ these immensely insightful thought processes LEARN The 2 Types of Thinking That will IMPROVE Your Problem Solving Skill You ll discover and learn how to implement the two types of thinking skill that you should be using everyday critical and lateral or out of the box thinking Far too often we listen to the constraints of the outside world the social standards of the society and fail to use all of our resources to change even the smallest of circumstances in our lives Now is the time to tackle problems in your life from lack of space to starting a new career on a small budget or even relationship problems What this book proposes at a surface level may not appear to make an impact in your life But as you read and apply ideas from this book you ll begin to understand how changing the way you view your circumstances can change how you approach all problems in your everyday life Would You Like To Know More Download and Start Activating Your Creative Thinking Scroll to the top of the page and select the buy button *The Palgrave Handbook of Applied Creativity in Global Higher Education* Gerard J.
