Thinking Clearly About Death Hackett Publishing Company Inc Us 1998:

Thinking Clearly about Death Jay F. Rosenberg, 1998-01-01 Jay Rosenberg's penetrating and persuasively argued analysis of the central metaphysical and moral questions pertaining to death has been updated and revised to expand and deepen several of its key arguments and to address conceptual developments of the past fifteen years. Among the topics discussed are Life After Death, The Limits of Theorizing, The Limits of Imagination, Death and Personhood, Values and Rights, Mercy Killing, Prolonging Life, Rational Suicide, and One's Own Death. Rosenberg's prose is lucid, lively, thoroughly absorbing, and accessible to introductory level readers. Essential reading for anyone interested in reflecting on this engaging topic.

Narrative and Consciousness Gary D. Fireman, Ted E. McVay, Owen J. Flanagan, 2003-06-12 We define our conscious experience by constructing narratives about ourselves and the people with whom we interact. Narrative pervades our lives; conscious experience is not merely linked to the number and variety of personal stories we construct with each other within a cultural frame but is subsumed by them. The claim, however, that narrative constructions are essential to conscious experience is not useful or informative unless we can also begin to provide a distinct, organized, and empirically consistent explanation for narrative in relation to consciousness. Understanding the role of narrative in determining individual and collective consciousness has been elusive from within traditional academic frameworks. This volume argues that addressing so broad and complex a problem requires an examination from outside our insular disciplinary framework. Such an open examination would be informed by the inquiries and approaches of multiple disciplines. Recognition of the different approaches to examining personal stories will allow for the coordination of how narrative seems, its phenomenology, with what mental labor it does, its psychology, and how it is realized, its neurobiology. Only by overcoming the boundaries erected by multiple theoretical and discursive traditions can we begin to comprehend the nature and function of narrative in consciousness. *Narrative and Consciousness* brings together essays by exceptional scholars and scientists in the disciplines of literary theory, psychology, and neuroscience to examine how stories are constructed, how stories structure lived experience, and how stories are rooted in material reality, the human body. The specific topics addressed include narrative in the development of conscious awareness, autobiographical narrative, fiction, and the construction of self, trauma, and narrative disruptions, narrative memory and identity, and the physiological and neural substrate of narrative. It is the editors' hope that the multidisciplinary nature of this collection will challenge the reader to move beyond disciplinary confines and toward a coherent interdisciplinary dialogue.

[The Power of Love and Democracy in the Philosophies of Martin Luther King, Jr. and Cornel West](#) Timothy L. Lake, 2025-09-18 This book locates an ethic of love as central to the democratic philosophies of Martin Luther King Jr. and Cornel West. While much has been written about King's moral vision, social activism, and theology, there has been no book-length treatment of the implications of his thinking for democratic theory. Additionally, Cornel West is the leading African American public intellectual of our time, but the range of his cultural criticism and academic scholarship

obscures his intellectual and social projects This project synthesizes West's vast corpus and places him within the modern African American intellectual tradition he shares with Du Bois King Maulana Karenga the creator of Kwanza and others Deeply grounded in the African American intellectual and philosophical traditions in which King and West are rooted as well as the Western mainstream political philosophical traditions in which they were educated this book offers a penetrating interpretation and comparative analysis of their thought on the ideals of democracy and of their critiques of American democracy It also reflects on the nature and values of democracy exploring how love is inseparable from justice in a democratic society
