Science and Beyond Rolf Sattler, 2021-06-22 Science coupled with technology has become the dominant force in most parts of the world Thus it affects our lives and society in many ways Yet misconceptions about science are widespread in governments the general public and even among many scientists Science and Beyond explores these misconceptions that may have grave and even disastrous consequences for individuals and society as was evident during the COVID 19 pandemic where they led to much unnecessary suffering sickness and death The misconceptions also obscure the limitations of science Not seeing these limitations prevents us from seeing and going beyond them which leads to a crippled life and an impoverished society But reaching beyond the limitations of science as outlined in this book can open the doors to a more fulfilled saner healthier happier and more peaceful life and society **Cancer as a Wake-Up Call** M. Laura Nasi,

M.D., 2018-10-02 An oncologist's integrative path to treating and living better with or beyond cancer Dr M Laura Nasi presents a new way of looking at how we view and treat cancer With current advances in medicine we're learning more about the ways different aspects of our lives and health impact and interact with one another why does one long term smoker get diagnosed with stage 4 lung cancer while another remains cancer free Why does someone exposed to a known carcinogen get sick while someone else is apparently immune What seemingly unrelated factors end up playing key roles in disease etiology progression and prognosis In this well researched inspiring and easy to read guide Dr Nasi offers an integrative whole person approach to cancer and explains how it is a systemic disease manifesting a global condition locally Conventional medicine focuses on attacking malignant cells Integrative medicine encourages chemo and radiation when

necessary while also focusing on a patient's internal balance to help halt the disease. Nasi draws on the latest research on the PNIE psycho-neuro-immuno-endocrine network to help our systems recognize, repair or eliminate the cancer cells, focusing on nutrition, stress management, exercise, adequate sleep, healthy relationships and other body-mind-spirit modalities. Dr. Nasi encourages patients to become empowered agents of their own care. From Self to Self Leo Hartong, 2005-09-18. A compilation of expressions, questions and answers that came about in response to Leo's highly praised first book *Awakening to the Dream*. Leo writes with characteristic insight and uses metaphor to illuminate the paradoxical and apparently confusing nature of non-dual reality. His original writing is reinforced by a vast knowledge of non-duality in other spiritual traditions and he weaves these together with his own direct path to present clear pointers to contemporary seekers. An appropriately chosen quotation taken from various sources appears at the end of each short chapter. Also included at the end of the book is the full text of the Hsin-hsin Ming by the third Chan patriarch, Seng-ts'an. The words in this book repeatedly point to the essence which knows the reading as it takes place. Rather than an encouragement to follow a lengthy path, it is an invitation to step off the path. It does not point to your awareness but to Awareness itself in which the idea of you appears. It does not point to your beingness but to the undeniable Beingness that appears as you. **Hinduism** Roshen
