

Walt Disney

AND THE PROMISE OF
Progress City

The book cover features a stylized illustration. In the foreground, a large, dark silhouette of a person's head and shoulders is shown in profile, looking towards the right. In the background, a bright orange, modernist building with a tall, thin spire stands on a green, hilly landscape. Several bright blue beams of light radiate from the building, extending across the dark blue sky. The overall style is graphic and evocative of mid-20th-century modernism.

Architecture and Leadership Mark Roberson,Alicia Crumpton,2022-12-12 From cathedrals to cubicles people go to great lengths and expense to design their living and working environments They want their spaces to be places where they enjoy being reflecting who they are and what they care about The resultant environments in turn become loud albeit unvoiced leaders for people occupying those corresponding spaces The design and use of work and living spaces typifies and thematizes expectations for the group Essentially the architecture of rooms buildings and cities creates cultures by conveying explicit and implicit messages This is evident when people approach and walk into St Basil's Cathedral in Moscow the Forbidden City in Beijing the Sydney Opera House in Sydney Australia the Jewish Museum in Berlin or the Rothko Chapel in Houston to name some examples While leaders oftentimes lack the resources to have their spaces mirror the greatest architectural achievements of the world they are in a position to use the art and science of architecture at whatever scale is available to their advantage The creative and intentional use of space and place advances and promotes cherished values and enhances organizational effectiveness This book explores the essence of good architecture and establishes relevant connections for leaders and managers to strategically design and use the organizational workplace and space to support their mission and purpose and create aesthetically meaningful work environments It equips leaders to be culturally astute on what defines good architecture and to incorporate principles of beauty in their leadership practices accordingly and will be of interest to researchers academics professionals and students in the fields of leadership organizational studies and architecture theory and practice
