Toronto Reciprocal Program 2015:

Reciprocal Learning for Cross-Cultural Mathematics Education Sijia Cynthia Zhu, Shu Xie, Yunpeng Ma, Douglas McDougall, 2020-12-15 This edited volume examines new ways of teaching mathematics through a cross cultural reciprocal learning project between sister schools in Canada and China. Situating teacher learning in the intersection of the two different school systems, curriculums and cultures of mathematics learning and teaching in both nations, this volume offers teachers a unique and much needed perspective on how practices between countries become more and more likely shaped by each other in the emerging global society. Born out of a comparative study project sponsored by the SSHRC, this volume compiles five years worth of findings from reciprocal partnerships between researchers, teachers, school administrators and students from both nations. Through the process of reciprocal learning and narrative inquiry, the research described in these chapters illuminates the unknown and shares newly created mathematics education knowledge. *West-East Reciprocal Learning in Teacher Education* Shijing Xu, Yibing Liu, Zuochen Zhang, Michael Connelly, Chenkai Chi, 2024-10-21 During this uncertain time, teacher education has never been more needed for West-East dialogues and Reciprocal Learning. Xu and Connelly's concept of reciprocal learning aims to harmonize the West-East dichotomy and foster appreciation in education and understanding of each other's culture and history. This book focuses on the field work done by the Teacher Education Research Team with chapter contributors from Canadian and Chinese professors, graduate students and pre-service teachers who have been deeply engaged in the RLP. Following Xu and Connelly's conceptual framework of Reciprocal Learning as Collaborative Partnership, the book begins with knowing the Teacher Education RLP, followed by doing the West-East reciprocal learning through the program. It concludes with a discussion of the envisioned future of the RLP and commentaries from distinguished scholars in teacher education, one from the West and the other from the East. **Narrative Inquiry into Reciprocal Learning Between Canada-China Sister Schools** Yuhua Bu, 2021-01-29 This edited volume explores how Chinese school-based educators learn from others and attain awareness in dialogue with the world in an era of increasing globalization and information exchange. Minzhu Primary School in Shanghai, China, and Bay Street School in Toronto, Canada, have been connected as sister schools of cross-cultural exchange since 2008. Together, they have explored ways to reciprocally learn in a cross-cultural partnership while remaining grounded in their home culture and language. In this book, chapter authors examine how Chinese school-based educators view themselves, understand others, and grow and develop as a consequence of a decade of cross-cultural reciprocal learning as sister schools. Further, the authors discuss prospects for future educational interactions between Canada and China. **Educating for Citizenship in a Canada-China Sister School Reciprocal Learning Partnership** Yishin Khoo, 2022-12-13 This book enriches the discourse around Global Citizenship Education in teacher education through the example of a teacher's experience in a Canada-China Sister School reciprocal learning landscape. Instead of positioning global citizenship teaching and learning as a set of fixed goals to be

attained by teachers alone this book approaches global citizenship teaching and learning as unfinished lifework in progress and as situated curriculum problems to be inquired together by university researchers school teachers and students under the spirit of reciprocity and community This reimagination of narratives theory and action start from collaborative and reciprocal learning partnerships among Chinese and Canadian researchers and teachers in the practicality of re searching and re enacting the purpose and meanings of twenty first century education in a Canada China Sister School setting
