He is best known for his work *The World as Will and Representation* in which he characterizes the phenomenal world as the product of an insatiable and blind metaphysical will.

The World as Will and Representation (the World as Will and Idea), Volume II of III Arthur Schopenhauer, 2012. German philosopher Arthur Schopenhauer wrote a strong text to explain his belief system in *The World as Will and Representation*. Rather than viewing the world as a construct within itself, Schopenhauer argued that the world exists beyond the five senses. He believed that rather than seeing an object in its true form, we only see and understand our perception of it. His ideas are classified as post-Kantian philosophy, just one strand of thought amidst other thinkers such as Hegel and Heidegger. However, Schopenhauer is generally thought to follow Kant's original ideas most closely. Still, the philosopher disagrees with Kant's view of ethics, saying that inner experiences driven by the Will are the most significant part of the human experience. Born in

the late 1700 s Schopenhauer was immersed in philosophy at a young age By age 25 he published his doctoral dissertation On the Fourfold Root of the Principle of Sufficient Reasoning In his most famous works he primarily focused on the attainment of happiness He believed that physical and emotional desires can never be satisfied resulting in a painful human condition Schopenhauer claimed that all actions are internally motivated by a desire to obtain pleasure but that lasting happiness would remain unobtainable The World as Will and Representation is widely hailed as Schopenhauer s greatest work as well as one of the most contemporarily written philosophical texts of the nineteenth century This edition splits the work into three volumes of which this is the second **Schopenhauer: 'The World as Will and Representation':**

Volume 1 Christopher Janaway,2010-10-28 First published in 1818 The World as Will and Representation contains Schopenhauer s entire philosophy ranging through epistemology metaphysics philosophy of mind and action aesthetics and philosophy of art to ethics the meaning of life and the philosophy of religion in an attempt to account for the world in all its significant aspects It gives a unique and influential account of what is and is not of value in existence the striving and pain of the human condition and the possibility of deliverance from it This new translation of the first volume of what later became a two volume work reflects the eloquence and power of Schopenhauer s prose and renders philosophical terms accurately and consistently It offers an introduction glossary of names and bibliography and succinct editorial notes including notes on the revisions of the text which Schopenhauer made in 1844 and 1859 **The World as Will and Representation or Idea III** Arthur Schopenhauer,2016-09-01 The World as Will and Representation Die Welt als Wille und Vorstellung is the central work of the German philosopher Arthur Schopenhauer The first edition was published in 1818 19 the second expanded edition in 1844 and the third expanded edition in 1859 In 1948 an abridged version was edited by Thomas Mann The development of Schopenhauer s ideas took place very early in his career 1814 1818 and culminated in the publication of the first volume of Will and Representation in 1819 This first volume consisted of four books covering his epistemology ontology aesthetics and ethics in order Much later in his life in 1844 Schopenhauer published a second edition in two volumes the first a virtual reprint of the original and the second a new work consisting of clarifications to and additional reflections on the first His views had not changed substantially His belated fame after 1851 stimulated renewed interest in his seminal work and led to a third and final edition with 136 more pages in 1859 one year before his death In the preface to the latter Schopenhauer noted If I also have at last arrived and have the satisfaction at the end of my life of seeing the beginning of my influence it is with the hope that according to an old rule it will last longer in proportion to the lateness of its beginning
