Theatrical Translation And Film Adaptation A Practitioners View Topics In Translation:

Theatrical Translation and Film Adaptation Phyllis Zatlin, 2005-10-12 Translation and film adaptation of theatre have received little study. In filling that gap, this book draws on the experiences of theatrical translators and on movie versions of plays from various countries. It also offers insights into such concerns as the translation of bilingual plays and the choice between subtitling and dubbing of film.

Translation, Globalisation and Localisation Wang Ning, Sun Yifeng, 2008-03-28 The global/local distinction has changed significantly and the topic has been heatedly debated in literary and cultural as well as translation scholarship. In this age of globalisation, the traditional definition of translation has been altered. In the present anthology, translation is viewed as a cultural and political practice and accordingly, translation studies is based on a heightened awareness of global/local tensions in translation and of its moderating and transforming impact on local cultural paradigms. All the essays in this anthology deal with issues of translation from a cultural and theoretic perspective with regard to tensions and conflicts between global and local interests and values. No matter how different their approaches may seem, the essays are thematically integrated to discuss translation in a dialectical framework, either globalising Chinese issues internationally or localising general and international issues domestically.

A Companion to Translation Studies Piotr Kuhiwczak, Karin Littau, 2007-04-12 A Companion to Translation Studies is the first work of its kind. It provides an authoritative guide to key approaches in translation studies. All of the essays are specially commissioned for this collection and written by leading international experts in the field. The book is divided into nine specialist areas: culture, philosophy, linguistics, history, literary, gender, theatre and opera, screen and politics. Contributors include Susan Bassnett, Gunilla Anderman and Christina Schffner. Each chapter gives an in-depth account of theoretical concepts, issues and debates which define a field within translation studies, mapping out past trends and suggesting how research might develop in the future. In their general introduction, the editors illustrate how translation studies has developed as a broad interdisciplinary field. Accompanied by an extensive bibliography, this book provides an ideal entry point for students and scholars exploring the multifaceted and fast-developing discipline of translation studies.

Cultural Dissemination and Translational Communities Katja Krebs, 2014-06-03 The early twentieth century is widely regarded as a crucial period in British theatre history; it witnessed radical reform and change with regard to textual, conceptual and institutional practices and functions. Theatre practitioners and cultural innovators such as translators Harley Granville Barker, William Archer and Jacob Thomas Grein amongst others laid the foundations during this period for what is now regarded to be modern British theatre. In this groundbreaking work, Katja Krebs offers one of the first extended attempts to integrate translation history with theatre history by analyzing the relationship between translational practice and the development of domestic dramatic tradition. She examines the relationship between the multiple roles inhabited by these cultural and theatrical reformers: directors, playwrights, critics, actors and translators and their positioning in a wider social and cultural context. Here she takes

into consideration the translators as members of an artistic network or community the ideological and personal factors underlying translational choices the contemporaneous evaluative framework within which this translational activity for the stage occurred as well as the imprints of social and cultural traces within specific translated texts Krebs employs the examples from this period in order to raise a series of wider issues on translating dramatic texts which are important to a variety of periods and cultures Cultural Dissemination and Translational Communities demonstrates that an analysis of stage translational practices allows for an understanding of theatre history that avoids being narrowly national and instead embraces an appreciation of cultural hybridity The importance of translational activity in the construction of a domestic dramatic tradition is demonstrated within a framework of interdisciplinarity that enhances our understanding of theatrical translational as well as cultural and social systems at the international level Managing Translation Services Geoffrey Samuelsson-Brown,2006-01-01 Geoff Samuelsson Brown s second book relating to translation services avoids the temptation of writing a management textbook but looks at the real issues faced by the practicing translator who wishes to progress from being a sole practitioner to an owner manager of a translation organisation While the book deals specifically with translation its contents can be readily applied to a range of service industries which are based around knowledge and skills Julie Skinner Learning and Development Manager **The Translation of Children's Literature** Gillian Lathey,2006-01-01 In the last few decades a number of European scholars have paid an increasing amount of attention to children s literature in translation This book not only provides a synthetic account of what has been achieved in the field but also makes us fully aware of all the textual visual and cultural complexities that translating for children entails Students of this subject have had problems in finding a book that attempted an up to date and comprehensive review of the field Gillian Lathey s Reader does just this Dr Piotr Kuhiwczak Director Centre for Translation and Comparative Cultural Studies University of Warwick
