Thucydides An Introduction For The Common Reader:

Thucydides: An Introduction for the Common Reader Perez Zagorin, 2024-11-01 An engrossing intellectual appreciation of the most important and most difficult historian in the western cultural tradition Tom Palaima Times Higher Education Supplement Why does Thucydides continue to matter today Perez Zagorin answers this question by examining Thucydides landmark History of the Peloponnesian War one of the great classics of Western civilization This history Zagorin explains is far more than a mere chronicle of the conflict between Athens and Sparta the two superpowers of Greece in the fifth century BCE It is also a remarkable story of politics decision making the uses of power and the human and communal experience of war Zagorin maintains that the work remains of permanent interest because of the exceptional intellect that Thucydides brought to the writing of history and to the originality penetration and the breadth and intensity of vision that inform his narrative The first half of Zagorin s book discusses the intellectual and historical background to Thucydides work and its method structure and view of the causes of the war The following chapters deal with Thucydides portrayal of the Athenian leader Pericles and his account of some of the main episodes of the war such as the revolution in Corcyra and the Athenian invasion of Sicily The book concludes with an insightful discussion of Thucydides as a thinker and philosophic historian Designed to introduce both students and general readers to a work that is an essential part of a liberal education this book seeks to encourage readers to explore Thucydides one of the world s greatest historians for themselves An extraordinary reminder of how little political distance we have traveled since his time Peter Stothard The Wall Street Journal

Democracy and Empire Alexander O. Boulton, 2021-10-07 Athens decision to invade Sicily in 415 BCE marked an important turning point in its war with Sparta which led ultimately to Athens defeat and the collapse of its empire This is the story of the men who persuaded the Athenians to make war against Sicily and who led the great armada against the island in middle of the Mediterranean The Athenian and Spartan leaders in the war between Athens and Sparta take center stage in this story But their story cannot be told apart from the political and social structures along with the religious practices and the roles of women foreigners and slaves in Athens during the great intellectual awakening of Athens in the fifth century BCE Underlying all of this is the story of the complex relationship between Athens democracy and its empire It is a story that has important lessons for the world today

Philosophic Classics: Volume 1 Forrest Baird, 2019-05-30 This seventh edition of Philosophic Classics Volume I Ancient Philosophy includes essential writings of the most important Greek philosophers along with selections from some of their Roman followers In updating this edition editor Forrest E Baird has continued to follow the same criteria established by the late Walter Kaufmann when the Philosophic Classics series was first established 1 to use complete works or where more appropriate complete sections of works 2 in clear translations 3 of texts central to the thinker s philosophy or widely accepted as part of the canon To make the works more accessible to students most footnotes treating textual matters variant readings etc have been omitted and important Greek words have been transliterated and put in angle

brackets In addition each thinker is introduced by a brief essay composed of three sections 1 biographical a glimpse of the life 2 philosophical a r sum of the philosopher s thought and 3 bibliographical suggestions for further reading New to this seventh edition Changes in translations New translations of Plato s Apology and Phaedo and Aristotle s Nichomachean Ethics and Politics from the acclaimed Focus Philosophical Library Series New translations of Plato s Euthyphro and Crito New translations of Epicurus s Letter to Herodotus Letter to Menoeceus and Principal Doctrines New translation of the Parmenides fragments Additional material Gorgias s model oration Encomium on Helen which gives a defense of Helen of Troy A selection from Plato s Gorgias on nature versus convention or law Additional material from the opening of Plato s Symposium to contextualize the dialogue Additional material from Plato s Republic Book IX on the tri partite soul Additional material from Aristotle s Metaphysics Book IV 1 4 7 on the nature of being and the so called three rules of thought A brief selection from Porphyry s Life of Plotinus giving a sense of the person Updated and reorganized bibliographies To allow for all these changes a section of Book V from Plato s Republic has been dropped Those who use this first volume in a one term course in ancient philosophy will find more material here than can easily fit a normal semester But this embarrassment of riches gives teachers some choice and for those who offer the same course year after year an opportunity to change the menu

U.S. Army War College Guide to National Security Issues: Theory of war and strategy J. Boone Bartholomees, Army War College (U.S.). Strategic Studies Institute, 2012 This edition of the U S Army War College Guide to National Security Policy and Strategy continues to reflect the structure and approach of the core national security strategy and policy curriculum at the War College The 5th Edition is published in two volumes that correspond roughly to the Department of National Security and Strategy s core courses Theory of War and Strategy and National Security Policy and Strategy Like previous editions this one is based on its predecessor but contains both updates and new scholarship Over a third of the chapters are new or have undergone significant rewrites Many chapters some of which appeared for years in this work have been removed Nevertheless the book remains unchanged in intent and purpose Although this is not primarily a textbook it does reflect both the method and manner we use to teach strategy formulation to America s future senior leaders The book is not a comprehensive or exhaustive treatment of either strategic theory or the policymaking process Both volumes are organized to proceed from the general to the specific Thus the first volume opens with general thoughts on the nature and theory of war and strategy proceeds to look at the complex aspect of power and concludes with specific theoretical issues Similarly the second volume begins by examining the policy strategy process moves to a look at the strategic environment and concludes with some specific issues This edition continues the effort begun in the 4th Edition to include several short case studies to illustrate the primary material in the volume
