De Wereld van het middeleeuwse kind Anne Houk de Jong,1997 Aspecten van de leefwereld van het middeleeuwse kind *Thuis in de late middeleeuwen* Provinciaal Overijssels Museum,1980 **A Cultural History of the Medieval Sword** Robert W. Jones,2023 This study takes the sword beyond its functional role as a tool for killing considering it as a cultural artifact and the broader meaning and significance it had to its bearer **At Home in Renaissance Bruges** Julie De Groot,2022-03-29 Domestic materiality in a remarkable European city How did citizens in Bruges create a home What did an ordinary domestic interior look like in the sixteenth century And more importantly how does one study the domestic culture of bygone times by analysing documents such as probate inventories These questions seem straightforward yet few endeavours are more challenging than reconstructing a sixteenth century domestic reality from written sources This book takes full advantage of the inventory and convincingly frames household objects in their original context of use Meticulously connecting objects people and domestic spaces the book introduces the reader to the rich material world of Bruges citizens in the Renaissance their sensory engagement their religious practice the role of women and other social factors By weaving insights from material culture studies with urban history At Home in Renaissance Bruges offers an appealing and holistic mixture of in depth socio economic cultural and material analysis In its approach the book goes beyond heavy handed theories and stereotypes about the exquisite taste of aristocratic elites focusing instead on the domestic materiality of Bruges middling groups Evocatively illustrated with contemporary paintings from Bruges and beyond this monograph shows a nuanced picture of domestic materiality in a remarkable European city **Manors and Markets** Bas van Bavel,2010-03-25 Exploring the Low Countries at a regional level van Bavel highlights the importance of localized structures for determining the nature of social transitions and economic growth **Single Life and the City 1200-1900** Isabelle Devos,Julie De Groot,Ariadne Schmidt,2015-07-23 By taking on a long term perspective a large geographical scope and moving beyond the homogeneous treatment of single people this book fleshes out the particularities of urban singles and allows for a better understanding of the attitudes and values underlying this lifestyle in the European past La moda come motore economico: innovazione di processo e prodotto, nuove strategie commerciali, comportamento dei consumatori / Fashion as an economic engine: process and product innovation, commercial strategies, consumer behavior Giampiero Nigro,2022-05-03 The study of the textile sector has always been central to economic history from reconstructions of the dynamic growth in the medieval wool industry to the rise of silk and light and mixed fabrics in the modern era to the driving role of cotton in the industrialisation process Although the dynamics of textile manufacturing are closely linked to the transformations of fashion economic history has long neglected its role as a factor in economic change treating it primarily as a kind of exogenous catalyst This book makes a decisive contribution to the understanding of a fundamental transformation the consequences of which are projected into contemporary society but which matured in pre industrial times the advent of fashion **Erasmus**

and His Books Egbertus Van Gulik, **The Technology of Salvation and the Art of Geertgen tot Sint Jans** JohnR. Decker, 2017-07-05 Investigating the complex interactions between devotional imagery and Church doctrine in the Low Countries during the fifteenth century this book demonstrates how the pictorial arts intersected with popular religious practice The author reconstructs the conceptual frameworks underlying the use and production of religious art in this period and provides a more nuanced understanding of the use of images in the process of soul formation This study delves into the complexity of the early modern system of personal justification and argues that religious images and objects were part of a larger Technology of Salvation In order to make these connections clearer the author analyzes selected works by Geertgen tot Sint Jans Little Gerard at St John s and shows how they functioned within their larger social and historical milieu
