Architect and Designer Birthday Book James Biber, 2024-06-25 A thoughtfully curated collection in a stunning package that recognizes and celebrates the birthdays of famous, infamous, and often overlooked designers and architects. The gift book for design and architect professionals and students they didn't know they needed but will no longer be able to live without. Drawn from architect James Biber's epic Instagram project in which he posted a birthday bio of a famous or less famous designer or architect every day for a mid-pandemic year, The Architect and Designer Birthday Book is filled with personal, opinionated, and humorous observations on fascinating design and architect figures past and present. The minibiographies and birthday profiles in the book cover a range of international architects and designers as well as artists, including Architects from the Aaltos, Aino and Alvar to Zumthor, Rivals Bernini and Borromini, Photographers Lee Miller, Louise Dahl Wolfe, Vivian Maier, Dody Weston Thompson, Margaret Morton, and Judith Turner, Midcentury modernists Marcel Breuer, Walter Gropius, and Florence Knoll, Charlotte Perriand, Lilly Reich, Anne Tyng, and Denise Scott Brown. More anecdotal histories than authorized biographies, these daily profiles are not only fun to read but provide spot-on commentary for anyone interested in how designers and architects relate to each other as well as their place in history. It is the intersection of Biber's life and the history of architecture and design. **Song and Circumstance** Sytze Steenstra, 2010-03-30 For over three

decades now David Byrne has been a leading light in American culture in popular music, experimental theatre, film, television, fine art, and writing. Based on the cultural capital he gained with his groundbreaking band Talking Heads, Byrne is able to enter into collaborations with many artists, some of popular fame (Brian Eno and Jonathan Demme, for example) and others known best in more specialized circles such as Joseph Kosuth, Twyla Tharp, and Caetano Veloso. The map of Byrne's collaborations, including the casual and incidental ones, reveals an ongoing effort to combine avant-gardism with popular appeal. This highly original and illustrated account of David Byrne's career is structured by choosing a specific abstract approach or a combination of two approaches for each chapter, discussing the parallels and contradictions between such approaches to benefit the interpretation of Byrne's art. As a result, the fertile conceptual brew that characterizes Byrne's way of making art is present from the beginning, while each chapter adds to thorough insight and developing perspective. *New Book Design* Roger Fawcett-Tang, 2004-05-25 New Book Design showcases the most interesting, influential, and accomplished book designs from the last ten years. Commodification And Spectacle in Architecture William S. Saunders, More than ever architectural design is seen as a means to promote commercial goals rather than as an end in itself Frank Gehry's Guggenheim Museum in Bilbao for example simply cannot be considered apart from its intended role as a catalyst for the economic revitalization of Bilbao and its ability to attract tourist dollars regardless of its architectural merits A built environment intended to seduce consumers is more likely to offer instant gratification than to invite independent thought and reflection But how harmful if at all is this unprecedented commercialization of architecture Framed with a provocative introduction by Kenneth Frampton the contributions to Commodification and Spectacle in Architecture stake out a variety of positions in the debate over the extent to which it is possible or desirable to escape from resist or suggest plausible alternatives to the dominant culture of consumer capitalism Rejecting any dreamy nostalgia for an idealized present or past in which design is completely divorced from commerce and in some cases celebrating the pleasures of spectacle the individual essays range from indictments of particular architects and critiques of the profession to broader concerns about what the phenomenon of commodification means for the practice of democracy and the health of society Bringing together an impressive and varied group of critics and practitioners Commodification and Spectacle in Architecture will help to sharpen the discussion of how design can respond to our hypercommodified culture Contributors Michael Benedikt Luis Fernandez Galiano Thomas Frank Kevin Ervin Kelley Daniel Naeyele Rick Poyner Michael Sorkin Wouter Vanstiphout William S Saunders is editor of Harvard Design Magazine and assistant dean for external relations at the Harvard Design School He is the author of Modern Architecture Photographs by Ezra Stoller Kenneth Frampton is Ware Professor of Architecture at Columbia University Graduate School of Architecture Planning and Preservation and author of many books including Labour Work and Architecture
