Tainted Witness Leigh Gilmore,2017-01-17 In 1991 Anita Hill's testimony during Clarence Thomas's Senate confirmation hearing brought the problem of sexual harassment to a public audience Although widely believed by women Hill was defamed by conservatives and Thomas was confirmed to the Supreme Court The tainting of Hill and her testimony is part of a larger social history in which women find themselves caught up in a system that refuses to believe what they say Hill's experience shows how a tainted witness is not who someone is but what someone can become Why are women so often considered unreliable witnesses to their own experiences How are women discredited in legal courts and in courts of public opinion Why is women's testimony so often mired in controversies fueled by histories of slavery and colonialism How do new feminist witnesses enter testimonial networks and disrupt doubt Tainted Witness examines how gender race and doubt stick to women witnesses as their testimony circulates in search of an adequate witness Judgment falls unequally upon women who bear witness as well known conflicts about testimonial authority in the late twentieth and early twenty first centuries reveal

Women's testimonial accounts demonstrate both the symbolic potency of women's bodies and speech in the public sphere and the relative lack of institutional security and control to which they can lay claim. Each testimonial act follows in the wake of a long and invidious association of race and gender with lying that can be found to this day within legal courts and everyday practices of judgment defining these locations as willfully unknowing and hostile to complex accounts of harm. Bringing together feminist literary and legal frameworks Leigh Gilmore provides provocative readings of what happens when women's testimony is discredited. She demonstrates how testimony crosses jurisdictions, publics and the unsteady line between truth and fiction in search of justice. **Youth and Suicide in American Cinema** Alessandra Seggi, 2022-10-27

This book explores the depiction of suicide in American youth films from 1900 to 2019. Anchored in Sociology, this multidisciplinary study investigates the causes and consequences of suicide and uncovers the socio-cultural context for the development of youth film and suicide. While such cinematic portrayals seem to privilege external explanations of suicide versus internal or psychological ones, overall they are neither rich nor sensitive. Most are simplistic, limited or at the very least unbalanced. At times they are flatly controversial. In light of this overall problematic depiction of suicide, this book offers a proactive approach to empower young audiences: a media literacy strategy to embrace while watching these films.

Becoming Religious in a Secular Age Mark Elmore, 2016-07-05 Religion is often viewed as a universally ancient element of the human inheritance, but in the Western Himalayas the community of Himachal Pradesh discovered its religion only after India became an independent secular state. Based on extensive ethnographic and archival work, *Becoming Religious in a Secular Age* tells the story of this discovery and how it transformed a community's relations to its past and to its members as well as to those outside the community. And as Mark Elmore demonstrates, Himachali religion offers a unique opportunity to reimagine relations between religion and secularity. Elmore shows that modern secularity is not so much the eradication of religion as the very condition for its development. Showing us that to become a modern ethical subject is to become religious, this book creatively augments our understanding of both religion and modernity.
