Each chapter tackles an aspect of counselling practice that will be reframed offering a more inclusive and culturally responsive approach. These practices will draw on six core principles: 1 decolonising education in counselling and psychology, 2 intersectionality, 3 cultural humility, 4 self awareness and critical reflection for therapists, 5 engagement and connection and 6 activism. This textbook serves as a valuable resource for teachers, students and practitioners of systemic practice, family therapy, clinical psychology, counselling and psychotherapy as well as for professionals in training.

Behavioral, Humanistic-Existential, and Psychodynamic Approaches to Couples Counseling Michael D. Reiter, Ronald J. Chenail, 2017-01-27. Couples counseling is distinct from individual and family therapy and while ideas from these other formats may be overlapping, applying theoretical concepts to couples has distinctive challenges. Behavioral, Humanistic, Existential, and Psychodynamic Approaches to Couples Counseling is unique in that it addresses how to conceptualize various theories around a single case. By discussing only one case, the reader is more readily able to compare and contrast the theoretical ideas of each theory as well as the pragmatics of techniques. Five theories are discussed around four consistent parts: history, theory of problem formation, theory of problem resolution, and case transcript.
