Thriving Systems Theory And Metaphor Driven Modeling:

Thriving Systems Theory and Metaphor-Driven Modeling Leslie J. Waguespack, 2010-10-01 How is it that one system is more effective appealing satisfying and or more beautiful than another to its stakeholder community This question drove Christopher Alexander's fifty year quest to explain great physical architecture and gave birth to pattern languages for building that underpin much of modern systems engineering How is it that so many individual stakeholders consistently recognize the same quality the same beauty in a system This question led George Lakoff to research the role of conceptual metaphor in human understanding What is essential to stakeholders satisfaction with systems Fred Brooks in his publications addressed this question This monograph fuses these diverse streams of thought in proposing Thriving Systems Theory by translating Alexander's properties of physical design quality into the abstract domain of information systems and modeling Metaphor Driven Modeling incorporates the theory while examining its impact throughout the system life cycle modeling design and deployment The result is holistic and innovative a perspective on system quality invaluable to students practitioners and researchers of software and systems engineering Designing Thriving Systems Leslie J.

Waguespack, 2019-04-10 This monograph illuminates a design mindset for systems artefacts that not only survive but thrive Of itself an artefact is devoid of design quality until encountered in a specific social context by human attendants Design quality is the affect of an intertwining of a an artefact's structural and behavior properties b an attendant humanly conception of quality an appreciative system and c the enfolding social context of their encounter To pursue quality in design is to interweave these three strands bound as a durable cord that evokes a visceral satisfaction or the delight of a ringing musical chord The human consciousness of design quality is fundamentally metaphoric and dynamic a perception of reality mediated by a personal value disposition In the continuum of experience living moment after moment both the attendant's metaphorical appreciation and their sense of quality evolve And thus design quality issues from perpetual concentric cycles of design construct experience learn assess calibrate over the life span of relationship with an artefact Design as a verb's purpose is to service the life in that relationship sustain its survival and hopefully raise that life to a state of thriving Design quality manifests throughout the cycles of design as a verb rather than as a product of it Such is the mindset in which the designer must indwell and that design education must nurture While all artefacts are systems the domain of artefact design of which I am most experienced is computing systems Therefore I will rest upon that domain to explore a theory and practice of design as a verb designing thriving systems **Mastering the Art of Command** Trent Hone, 2022-09-15 Honorable

Mention for the John Lyman Book Award in the category of U S Naval History Mastering the Art of Command is a detailed examination of Admiral Chester W Nimitz's leadership during World War II It describes how he used his talents to guide the Pacific Fleet following the attacks on Pearl Harbor win crucial victories against the forces of Imperial Japan and then seize the initiative in the Pacific Once Nimitz's forces held the initiative they maintained it through an offensive campaign of

unparalleled speed that overcame Japanese defenses and created the conditions for victory As a command and operational history Mastering the Art of Command explores how Nimitz used his leadership skills command talents and strategic acumen to achieve these decisive results Hone recounts how Nimitz as both Commander in Chief of the Pacific Fleet CINCPAC and Commander in Chief of the Pacific Ocean Areas CINCPAC revised and adapted his organizational structure to capitalize on lessons and newly emerging information Hone argues that Nimitz because he served simultaneously as CINCPAC and CINCPAC was able to couple tactical successes to strategic outcomes and more effectively plan and execute operations that brought victory at Midway Guadalcanal the Marshall Islands the Philippines Iwo Jima and Okinawa As a study of leadership Mastering the Art of Command uses modern management theories and builds upon the approach in his award winning Learning War Trent Hone explores the challenge of leadership in complex adaptive systems through Nimitz s behavior and causes us to reassess the inevitability of Allied victory and the reasons for its ultimate accomplishment A new narrative history of the Pacific war this book demonstrates effective patterns for complexity informed leadership by highlighting how Nimitz maintained coherence within his organization established the conditions for his subordinates to succeed and fostered collaborative sensemaking to identify and pursue options more rapidly Nimitz s strategic artistry is a pattern worthy of study and emulation for today s military officers civilian leaders and managers in large organizations **Social Strategies**

Building the City Marielly Casanova ,2019 Social housing is a complex system integrated by social economic political and city making processes Social practices in the called social production of the habitat provide clues to understand an alternative way to approach housing solutions in which several dimensions coexist Through the rationalization of social self management economic social economy and urban principles it was possible the construction of typologies to document and evaluate 3 case studies in Latin America This book provides a foundation for future research and conception of social housing policies and programs *Beyond the Informal* Ninik Suhartini,Paul Jones,2023-01-01 This book provides a much needed analysis of the pivotal role of the urban kampung in Indonesia s urbanization process and importantly provides a deeper understanding of how these communities create their complex socio physical environments through self organization The book challenges the current formal approaches and practices to modern planning in Indonesia where many kampungs are classed as illegal and excluded from city plans Beyond informality unpacks via three case studies the self generated planning and development arrangements and mechanisms which occur parallel to processes of formal exclusion adaptation negotiation and modification Kampungs are posited as inseparable urban entities contributing to the complex assemblage of the city and the dynamics of contemporary urban planning and design In the context of planning and design practice this book provides a better understanding on how one needs to consider human scale urbanism to achieve more effective and efficient planning plans and policies in the self organized city Even though self organization by residents comes with its challenges as outlined in the book formal planning in both Indonesia and other developing countries has much to learn from understanding self

C. Facundo, 2016-10-04

Revises key psychoanalytic concepts that influence interpretive practices in the humanities and formulates a new approach to reading fiction Oscillations of Literary Theory offers a new psychoanalytic approach to reading literature queerly one that implicates queer theory without depending on explicit representations of sex or queer identities By focusing on desire and identifications A C Facundo argues that readers can enjoy the text through a variety of rhythms between two eroticized positions the paranoid imperative and queer reparative Facundo examines the metaphor of rupture as central to the logic of critique particularly the project to undo conventional formations of identity and power To show how readers can rebuild their relational worlds after the rupture Facundo looks to the themes of the desire for omniscience the queer pleasure of the text loss and letting go and the vanishing points that structure thinking Analyses of Nabokov's Lolita Danielewski's House of Leaves Findley's The Wars and Ishiguro's Never Let Me Go are included which model this new approach to reading Armed with a full repertoire of psychoanalytic resources Facundo navigates the paranoid reparative debate in literary studies with greater finesse than any critic I've read Reframing current critical impasses Oscillations of Literary Theory makes substantial contributions to narrative theory and aesthetics by illuminating their crucial connections with sexuality and pleasure Facundo offers us here nothing less than a new method of reading queerly Tim Dean University of Illinois Urbana Champaign This book seeks to understand hermeneutic imperatives and flights from these in terms of paranoid and reparative drives as distinct from affect It is a bold and ambitious project but Facundo brings to it an exceptional array of skills I am impressed by the author's close subtle and very canny readings of both theoretical and literary texts and by her demonstration of the

complexity variety and centrality of ideas and operations of paranoia and the reparative in writings from Freud to the present Oscillations revitalizes psychoanalytic criticism in its distinctly queer relation to psychoanalysis a relation that yields surprising and refreshing insights Stephen M Barber coeditor of Regarding Sedgwick Essays on Queer Culture and Critical Theory Partnerships for Regional Innovation and Development Marta Gancarczyk,Anna Ujwary-Gil,Manuel González-López,2021-08-05 This monograph presents the experience in the implementation of smart specialization strategies S3 from multilevel policy governance as well as from the bottom up perspectives of firms clusters and networks in selected European countries The presented research focuses on relevance and feasibility of the S3 adoption emphasizing the importance of linking policy considerations with partnerships at lower governance levels The major contribution of the presented research rests in theoretical implications and practical recommendations relevant for the implementation of regional S3 in the European context with the possibility of place based adoption in other environments The book is also valuable for synthesizing the most recent advancements in smart specialization as a policy concept and the concept of transformation and growth for territorial units and economic entities This book aims to further diffuse and expand the academic community's learning of the new S3 approach in Europe and beyond The book will be of interest and useful to the academic community of researchers and doctoral students focused on regional innovation development and related policy as well as on entrepreneurship networks and clusters Public sector professionals dealing with regional development regional innovation policies and industrial transformation will also benefit from its content Innovations in Acceptance and Commitment Therapy Michael E.
