Language Arts in Asia Christina DeCoursey, 2012-01-17 This volume is the first of a series contributing to the academic study of Language Arts as an English language teaching paradigm Language Arts has been widely used in native English speaking countries including Australia and New Zealand Its recent adoption into the second language teaching curriculum in Hong Kong as well as similar initiatives within secondary and tertiary education in mainland China enhances its interest to scholars studying second language teaching and learning in Asian contexts This book offers many papers and discussions of interest to teachers language professionals scholars and administrators Its chapters explore current topics in Language Arts research including trends in the rapprochement of stylistics and linguistics teaching approaches and learning outcomes At the same time they offer diverse theoretical and methodological approaches of interest to the practitioner and policy maker as well as the researcher The value of this volume lies particularly in strengthening the theoretical and methodological foundations of Language Arts The use of literature and the arts in humanist education has a long history within Europe being traditionally appreciated for its ability to transform leaders instill finer sensibilities and question social ills In its postcolonial incarnations as the traditional subject areas were informed by critical and linguistic theories language arts subject areas were less often used as they were understood to offer opportunities to analyse their functions as apology for leaders coopting the young and pacifying dissent but less often used to teach second language skills Language Arts curricula arising since the

1980s have increasingly embraced authentic voices styles and genres Contemporary Language Arts curricula use literature to teach reading based and communication skills in conjunction with critical and creative thinking The movement of English language education beyond native English shores has placed Language Arts into a World Englishes frame and therefore its curricula have included the teaching ethics civics and intercultural sensitivity The explosion of media and digital communications of the 1990s led to the adoption of media literacy as a crucial Language Arts skill As digital innovations continue to impact the teaching of English Language Arts has adopted multiliteracies These developments are represented in the papers included in this volume

Integrating Young Adult Literature through the Common Core Standards Rachel L. Wadham, Jon W. Ostenson, 2013-01-07 This book advocates for a stronger role for young adult literature in ELA classrooms compellingly documenting how this body of work meets both the needs of adolescent students and the demands of the common core for complex texts and tasks *Integrating Young Adult Literature through the Common Core Standards* provides a compelling template for teachers that uses young adult literature and inquiry learning to meet students needs and the demands of the common core standards The first part of the book addresses the widely adopted common core state standards by examining closely the standards model of text complexity and demonstrating how young adult literature can fill the requirements of this model The second part provides theoretical discussions and analysis of the standards as well as concrete applications of young adult literature within the classroom in order to give school professionals a comprehensive understanding of how young adult literature and the standards can work together The book empowers schools and teachers to make intelligent informed decisions about texts and instructional practices that benefit their students Finally the authors explore a powerful teaching approach that integrates current understandings about learning young adult literature and the common core standards in a way that will facilitate greater learning and understanding in English classrooms
